FORENSIC BIOLOGY REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s): 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 1
Date Evidence Accepted: 11/16/2022	Analyst: Stephanie Wilt	
Case Name(s): Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

- Item 1: KA-BAR knife sheath
 - Item 1.1: Swab of front strap
 - Item 1.2: Swab of edges on handle portion
 - Item 1.3: Swab of edges on blade portion
 - Item 1.4: Swabs of stains on back

CONCLUSIONS AND INTERPRETATIONS:

Results from presumptive chemical tests performed on Item 1 indicated the presence of blood.

Item 1 was swabbed for DNA collection.

Trace evidence was collected from Item 1, but was not examined at this time.

Known reference samples from Madison Mogen, Xana Kernodle, Ethan Chapin, and Kaylee Goncalves are required for DNA comparison. Please contact the laboratory regarding the status of these known reference samples.

A known reference sample from any developed suspect(s) is required for DNA comparison. Please contact the laboratory regarding the status of this known reference sample.

DISPOSITION OF EVIDENCE:

Items 1.1, 1.2, 1.3, and 1.4 were forwarded for DNA analysis. Results will follow in a separate report. Item 1 was left in the custody of Forensic Scientist Tina Walthall pending latent fingerprint processing. The empty packaging for Items 1.1, 1.2, 1.3, and 1.4 has been returned to the main laboratory evidence vault pending DNA analysis.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

CONCLUSIONS AND INTERPRETATIONS:

Results from presumptive chemical tests for the presence of blood were negative on Items 66 and 67.

Items 68 and 69 were visually examined; no stains consistent with blood were observed.

Items 66, 67, 68, and 69 were swabbed for DNA collection.

Item 67.1 was sampled for DNA collection.

Items 57 through 65 were examined only for the purpose of sampling for DNA analysis.

DISPOSITION OF EVIDENCE:

A portion of Items 57 through 65, 66.1, 67.1 through 67.5, 68.1, and 69.1 was forwarded for DNA analysis. Results will follow in a separate report. Items 66, 68, and 69 were left in the custody of Forensic Scientist Tina Walthall pending latent fingerprint processing. All remaining items have been returned to the main laboratory evidence vault pending DNA analysis.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

CONCLUSIONS AND INTERPRETATIONS:

Results from presumptive chemical tests performed on Items 72 through 78, 101, 102, 103, and 104 indicated the presence of blood.

Results from presumptive chemical tests for the presence of blood were negative on Items 100, 105, 106, and 107.

Item 99 was microscopically examined and determined to be a hair with a root which is likely insufficient for nuclear DNA analysis.

Item 108 was examined only for the purpose of sampling for DNA analysis.

Trace evidence was collected from Item 105, but was not examined at this time.

If DNA testing is desired on Items 99, 104.1, and stains A through I from Item 102, documentation authorizing consumption of these items must be submitted. Please contact the laboratory regarding the analysis request.

DISPOSITION OF EVIDENCE:

A portion of Items 72 through 78, 101.1, 103.1, 103.2, 103.3, and 108 have been forwarded for DNA analysis. Results will follow in a separate report. Items 99, 102, and 104.1 have been returned to the main evidence vault pending authorization to consume. If authorization has not been received after 60 days, these items may be returned to the submitting agency without analysis. Items 100, 104, 105, 106, and 107 have been returned to the main laboratory evidence vault for return to the submitting agency. All remaining items have been returned to the main laboratory evidence vault pending DNA analysis.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

CONCLUSIONS AND INTERPRETATIONS:

Results from presumptive chemical tests for the presence of blood were negative on Items 111, 112, 113, 114, 115.1, 115.2, 116.2, 117, 118.1, 118.2, and 119.

Items 116.1 and 118.3 were visually examined; no stains consistent with blood were observed. No further examinations were conducted on these items.

Trace evidence was collected from Item 111, but was not examined at this time.

If DNA testing is desired on Item 111.1, documentation authorizing consumption of these items must be submitted. Please contact the laboratory regarding the analysis request.

DISPOSITION OF EVIDENCE:

Item 111.1 has been returned to the main laboratory evidence vault pending authorization to consume. If authorization has not been received after 60 days, this item may be returned to the submitting agency without analysis. All remaining items have been returned to the main laboratory evidence vault for return to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 29
Date Evidence Accepted: 03/03/2023	Analyst: Stephanie Wilt	
Case Name(s): Suspect - BRYAN KOHBERGER Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

- Item 120: Submitted swab of gas and brake pedal from Bryan Kohberger's vehicle
- Item 121: Submitted swab of gear shift from Bryan Kohberger's vehicle
- Item 122: Submitted swab of seat belt buckle from Bryan Kohberger's vehicle
- Item 123: Submitted swab of gas and trunk release from Bryan Kohberger's vehicle
- Item 124: Submitted swab of radio controls from Bryan Kohberger's vehicle
- Item 125: Submitted swabs of stains in west bedroom on floor 2
 - Item 125.1: Submitted swab of stain on trash can in west bedroom (Marker T)
 - Item 125.2: Submitted swab of stain on chair in west bedroom (Marker U)
- Item 126: Submitted swab of stain on east bedroom door on floor 3 (Marker X)

CONCLUSIONS AND INTERPRETATIONS:

Results from presumptive chemical tests performed on Items 125.1, 125.2, and 126 indicated the presence of blood.

Results from presumptive chemical tests for the presence of blood were negative on Items 120 through 124.

DISPOSITION OF EVIDENCE:

A portion of Items 125.1, 125.2, and 126 was forwarded for DNA analysis. Results will follow in a separate report. Items 120 through 124 have been returned to the main laboratory evidence vault for return to the submitting agency. All remaining items have been returned to the main laboratory evidence vault pending DNA analysis.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.
