Cell Phone Warrants

Case # 22-M09903

Date: 11/17/2022

On November 16, 2022, I applied for and was granted the following warrants for the cell phone providers serving the area around 1122 Kings Road in Moscow, Idaho:

AT&T

11760 U.S. Highway 1, Suite 300
North Palm Beach, FL 33408-3029

For a tower dump of all records and unique device/user identifiers pertaining to Timing Advance, Real Time Tool (RTT), Location Database of Record (LocDBoR) location information during the following listed dates, times and geographical boundaries (distance from GPS points):

GPS Coordinates: 46.721960, -117.010790 Distance from Location: 0.50 miles

Date: November 13, 2022 Time: 3:00 a.m. - 5:00 a.m. (PST)

This warrant was served at approximately 1009 hours via email atgldc@att.com.

For the AT&T Call Detail Records (CDR) for the following phone accounts:

AT&T Wireless Number: [REDACTED] 1278

AT&T Wireless Number: [REDACTED] 1224

AT&T Wireless Number: [REDACTED] 7846

This warrant was served at approximately 0922 hours via email atgldc@att.com.

Verizon Wireless

Attn: Custodian of Records
180 Washington Valley Road
Bedminster, NJ 07921

For a tower dump or all records and unique device/user identifiers pertaining to Timing Advance, Real Time Tool (RTT), Location Database of Record (LocDBoR) location information during the following listed dates, times and geographical boundaries (distance from GPS points):

GPS Coordinates: 46.721960, -117.010790 Distance from Location: 0.50 miles

Date: November 13, 2022 Time: 3:00 a.m. - 5:00 a.m. (PST)

And for the Verizon Call Detail Records (CDR) for the following phone accounts:

Verizon Wireless Number: [REDACTED] 1841

Verizon Wireless Number: [REDACTED] 3185

Verizon Wireless Number: [REDACTED] 2881

This warrant was served at approximately 0935 hours via fax 888-67-0026.

T-Mobile

Attn: Law Enforcement Relations Group

4 Sylvan Way

Parsippany, NJ 07054

lerinbound@T-Mobile.com

For a tower dump of all records and unique device/user identifiers pertaining to Timing Advance, Real Time Tool (RTT), Location Database of Record (LocDBoR) location information during the following listed dates, times and geographical boundaries (distance from GPS points):

GPS Coordinates: 46.721960, -117.010790 Distance from Location: 0.50 miles

Date: November 13, 2022 Time: 3:00 a.m. - 5:00 a.m. (PST)

This warrant was served at approximately 1029 hours via email

lerinbound@T-Mobile.com

For the T-Mobile Call Detail Records (CDR) for the following phone accounts:

T-Mobile Wireless Number: [REDACTED]-4818

T-Mobile Wireless Number: [REDACTED]-4782

This warrant was served at approximately 0942 hours via email

lerinbound@T-Mobile.com

Inland Cellular

960 West Pullman Road

Moscow, Idaho 83843

For a tower dump of all records and unique device/user identifiers pertaining to Timing Advance, Real Time Tool (RTT), Location Database of Record (LocDBoR) location information during the following listed dates, times and geographical boundaries (distance from GPS points):

GPS Coordinates: 46.721960, -117.010790 Distance from Location: 0.50 miles

Date: November 13, 2022 Time: 3:00 a.m. - 5:00 a.m. (PST)

This warrant was served at approximately 1044 hours via email

Alivea Goncalves Files

Case # 22-M09902

Date: 11/17/2022

On November 15, 2022, I received an email from Steve Goncalves, the father of Kaylee Goncalves. He stated he had access to some of Kaylee's messages and phone calls. Steve stated he would have his other daughter, Alivea, contact me about those files.

I was able to speak to Alivea and she sent me various files, including an image from the Spokesman Review showing a camera on a nearby residence, text messages between Kaylee and Jack Decouer, text messages between Kaylee and her Uber driver [REDACTED], a recent phone call list, and video from the Grub Truck Twitch.tv feed.

I attached these files to the case file. The communication between Kaylee and Decouer was located on Decouer's phone examination and the Twitch feed was previously downloaded.

In the image showing the camera, it was found that residence was at 1112 King Road. The SD card from the camera was brought to the Moscow Police Department, but the file system of the card was not recognized by any of the forensic computers. The card was returned to the owner and reinstalled into the camera.

On November 17, 2022, Ofc John Rosinsky re-contacted the owner of the camera, [REDACTED] via phone. [REDACTED] stated she was out of town, but sent a video to Ofc Rosinsky showing a figure walk to the dumpster and appear to look inside.

To preserve any potential evidence on the camera, I asked [REDACTED] if we could seize the entire device, including the SD card, to which she stated yes. [REDACTED] stated she would not be back in Moscow until approximately November 28, 2022. I directed [REDACTED] to contact me when she returns to her residence, at which time I will attempt to connect the camera back to her WIFI router and view video from the device.

Preservation Facebook 7370025

Case # 22-M09903

Date: 11/18/2022

On November 18, 2022, I received an email from Alivea Goncalves showing a screenshot of a Facebook post from Dylan Mortensen. In the post the account, the user name was [REDACTED], reported details about the incident. I searched for this user and found a userID of [REDACTED]. This account had an avatar similar to the Mortensen avatar.

I was able to pull up the account and it appeared to have the following friends associated with it:

[REDACTED]
[REDACTED]
[REDACTED]

I requested preservation on all four (4) of these accounts. At approximately 0745 hours, I received an email from Facebook stating the accounts were preserved.

Twitch Video

Case # 22-M09903

Date: 11/18/2022

On November 13, 2022, I was informed two of the victims had been patrons at the Grub Truck, located on Main Street in Moscow, Idaho. I was also informed Grub Truck streams live feeds of their customers and sales via Twitch.tv.

I was able to locate the Twitch account "GrubTruckers" and locate the stream from the November 12-13, 2022. This stream was labelled, "The Carbonara effect... we'll never reveal our secret ingredient" and located at <https://www.twitch.tv/videos/1651413498>.

In the video, Kalyee Goncalves and Maddie Mogen are seen walking into camera view on the video at 3:43:01 timestamp. They are accompanied by a male, later identified as John "Jack" Showalter. Goncalves orders and receives food.

At the 3:53:31 timestamp, the girls are seen walking around the truck and leave the area. Showalter appears to be talking to another patron and does not see the girls leave. Showalter then raises his arms in a "What?" fashion and walks away in a different direction than the girls.

A copy of this video was captured and saved as evidence.

Uber Location Request

Case # 22-M09903

Date: 11/18/2022

On November 18, 2022, I logged into the Uber Law Enforcement Portal (lert.uber.com) and submitted an exigent preservation request for any location data associated with the Uber driver named [REDACTED] with the phone number of [REDACTED]-6059. Due to the nature of the investigation, Uber recommended an exigency request for the preservation.

In a screen shot received from Alivea Goncalves, it showed messages which appear to be from [REDACTED] phone between Kaylee Goncalves and himself. The name of the recipient is "Kaylee Uber."

It is unknown if [REDACTED] was "on duty" with Uber at the time of him picking up Goncalves and Maddie Mogen. Uber stated if the driver was "on duty" it would show the location of the vehicle. If the driver was not "on duty," Uber would not have the data. I was informed by Uber Customer Service this is common if the driver provides personal transportation services.

At 1434 hours, I received an email from Uber stating they received my request.

I received an email at approximately 1617 hours from Uber, which contained files regarding the Uber logs of [REDACTED]. The records showed his location up until approximately 0115 hours, where it appears no other information is found and [REDACTED] goes "off duty." These records were attached to the case file. No warrant was requested or returned as Uber provided the data via the exigent request.

1112 King Video

Case # 22-M09903

Date: 11/19/2022

On November 13, 2022, I was informed of a possible surveillance camera located at 1112 King Road. Cpl Ryan Snyder had spoken with one of the residents at this location, [REDACTED], who had a camera using the Homeye Pro app on the porch of their dwelling.

Cpl Snyder provided me with the username and password for the Homeye Pro account associated with [REDACTED]. I asked Cpl Snyder if this video was stored on a cloud-based system for me to view or if [REDACTED] could download a copy of the video.

I was provided a 32GB SDCard from the camera, but the file format was not recognized by any of my forensic computers and prompted me to format the disk. Cpl Snyder informed me [REDACTED] could screen capture the video from her phone, and the card was returned to [REDACTED] to enable her to assist in the acquisition of the data.

On November 17, 2022, I requested the assistance of Ofc John Rosinsky to recontact [REDACTED] and see if she could provide the video from the camera. Ofc Rosinsky contacted [REDACTED] who stated she was in Boise, Idaho until November 28, 2022. Ofc Rosinsky [REDACTED] sent him a video of a male subject walking by the camera at approximately 0320 hours towards the dumpster on Ofc Rosinsky contacted me and I spoke to [REDACTED] and requested permission to remove the camera from the residence and she consented.

Based on my training and experience I know many of the different video surveillance cameras use a First-In, First-Out storage retention system. This means the newer data overwrites the older data. I was concerned data may be lost the longer the camera continued to record footage. I requested assistance from Ofc Aaron Morris to go to the residence and unscrew the camera from its location. The camera screws into a common light bulb base, commonly found on patio/porch fixtures. Ofc Morris returned a short time later with the camera and the SDCard.

On November 18, 2022, I again attempted to view the contents of the SDCard, I plugged the card into a write-blocker and it still was not recognized by the computer. I used FTK Imager version# 4.7.1.2 to make an image of the SDCard. Now

that the data was on a drive recognized by the operating system, I then used Axiom Magnet version# 6.5.0.32778 to parse data from the card.

In reviewing the data, I found over 13,000 individual images from the card. They appear to be individual video frames from the camera.

While attempting to view the data on the card, I received a forwarded email from [REDACTED], whose sister [REDACTED] resides at the residence. The email stated that he was viewing the video remotely when Ofc Morris removed the camera. He stated he saw a suspicious vehicle in the area and was concerned with the video footage stored on the device being overwritten.

I was then put in touch with [REDACTED], another resident at 1112 King Road. [REDACTED] stated she would be back in Moscow at approximately 2000 hours. I met with [REDACTED] at her residence and asked again if she would be willing to assist in recording screen captures on her phone from the device. I explained to [REDACTED] I would replace the camera, gather the information and then take the camera as evidence. I also explained to [REDACTED] I needed to take the wireless router, since the camera was already linked to the WIFI network. [REDACTED] stated she would consent and allow both items to be seized.

I reinstalled the camera in the light socket and it powered on. I was able to watch as [REDACTED] accessed the footage on the camera. During this time, the camera showed a vehicle entering the area at approximately 0356 hours and leaving at a high-rate of speed at approximately 0420 hours. [REDACTED] provided the videos to me. I uninstalled the camera and seized the wireless router. Both items were then taken back to the Moscow Police Department as evidence.

On November 19, 2022, while reviewing the videos located at 0356 and 0420, it appeared the vehicle left the area and may have travelled on Walenta Drive, however, the video stopped. In an attempt to see further, and gain perhaps a better resolution, I reconstructed the wireless network the camera operated on by powering on the wireless router. I downloaded the Homeye Pro app on my work phone.

I was able to use the app and download the video clips. These clips included audio, which were not a part of the screenshots completed and were able to capture a longer duration. In the clips, the vehicle's exhaust and acceleration can be heard, as well as seeing the vehicle leave at a high rate of speed on Walenta Drive.

After capturing the clips, I disconnected the camera and wifi router and placed them into evidence. The videos were placed onto a DVD and placed into evidence.

Router Interrogation

Case # 22-M09903

Date: 11/15/2022

On November 13, 2022, I responded to 1122 King Road in Moscow, Idaho in an attempt to interrogate the wireless router located at this residence. After speaking with Cpl Brett Payne, he informed me the wireless router and cable modem were located in the living room on the second floor.

After arrival, I used an ethernet cable to connect my laptop to the Local Area Network (LAN) ports on the back of the Spectrum WiFi 6 router with the Serial # 60SA2203000B752. The router then provided my laptop with an IP address and Gateway IP, which resolved to the router.

I attempted to locate a web-based management portal for the device but was prompted to download the Spectrum app and use the account username and password to access the device. I contacted Spectrum technical support and found this was the only way for the client to access the data on the device.

I then called the Charter Law Enforcement Response Team (LERT) and spoke with a representative and tried to ascertain if Charter/Spectrum could retrieve data from the router via their diagnostic portal. After several days and phone calls to Charter, I spoke with [REDACTED] the manager of the Legal Response Operations Center. [REDACTED] stated her team was working on verifying if the router hardware was able to be accessed.

On November 17, 2022, I again called Charter and left a voicemail. [REDACTED] returned my phone call and stated her technicians were able to access and download the data from the router, however, they did not preserve the correct timeframe specified in my request. I was told she would have her technicians retry and preserve the data.

On November 17, 2022, I again called Charter and left a voicemail for [REDACTED]. I received a call back from [REDACTED] who stated the technicians were able to retrieve data for the time periods of September 14, 2022 to November 7, 2022 and November 11, 2022 to November 14, 2022. I was informed there was a problem with their cloud services and that resulted in the data loss for November 8-10. I informed [REDACTED] I would be applying for a warrant and requesting that data with the legal process.

From my training and experience, I know wireless routers (WIFI routers) allow wireless devices (phones, tablets, laptops, etc) to connect to them for access to the internet or other devices on the local area network (LAN). During this process, after a device has successfully connected to the wireless router, a log of this connection, and the specific MAC address (Media Access Control) of each device, is kept on the device. If a user previously selected the "connect automatically" setting while connecting to the wireless router, which is a common default setting, the device will connect to the router automatically without any user input. These devices would have to be in close proximity of the router to be shown on the MAC address log.

The data previously stored on the wireless router, located at 1122 King Road, and preserved by Charter/Spectrum, may show individual MAC addresses of devices connected to the device. If the suspect had previously connected to the wireless router, was in close proximity to the wireless router located in the residence, this device may have automatically connected and appear on the MAC address logs. This could provide evidence of when a device was in close proximity of the router on the night Madison Mogen, Kaylee Goncalves, Xana Kernodle and Ethan Chapin were murdered.

I requested the assistance of the Latah County Prosecutor's Office in applying for a warrant to serve on Charter for the data records preserved and stored at Charter Communications, associated with the Spectrum Wireless Router with Serial Number 60SA2203000B752 and MAC 4C:19:5D:42:2E:D1, and Spectrum Cable Modem with MAC 1C9ECCCD9B9C and Serial Number 472668464 from the time frame of September 14, 2022 to November 14, 2022.

On November 21, 2022, I was granted a warrant for the data preserved by Charter and served the warrant at approximately 2039 hours via email to [REDACTED]@Charter.com.

On November 22, 2022, I received an email from [REDACTED] stating the files were ready to download via the Charter Portal. I logged into the portal, downloaded the files and saved them to a computer in the secure forensic lab at the Moscow Police Department.

I completed the warrant return receipt and affidavit. These documents were sent to the [REDACTED] Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to Charter ([REDACTED]@charter.com), as this was the originating email address associated with the documents.

Decouer Phone Warrant

Case # 22-M09903

Date: 11/17/2022

On November 17, 2022 Jack Ducouer was interviewed by Sgt Mike VanLeuven from the Idaho State Police at the ISP District One Office. At that time, he provided his phone to Sgt VanLeuven along with consent to the search the phone. That phone is an iPhone XR with [REDACTED] transported to the Coeur d'Alene Police Department Forensic Lab at 3818 Schreiber Way, in Coeur d'Alene Idaho 83815. I applied for and was granted a search warrant to access the contents of the iPhone.

The phone was to be extracted by Det Dustin Taylor of the Coeur d'Alene Police Department. Det Mike VanLeuven had taken the phone to Dustin Taylor at the computer forensic lab at Coeur d'Alene Police Department. I emailed a copy of the warrant to him at 1643 hours on November 17, 2022.

On November 18, 2022, while confirming Det Taylor received the warrant, I was informed the phone was no longer at Coeur d'Alene Police Department. Idaho State Police Lieutenant Paul Berger picked up the phone from Taylor and delivered it to the Spokane County Sheriff's Office, where Investigative Analyst Vince Jimno received it. The data on the phone was forensically extracted at that location.

On November 19, 2022, Idaho State Police Det. Richalderson retrieved the phone from the forensic lab and delivered the phone to Decouer's mother per the attorney's wishes.

On November 21, 2022, Det Anderson of the Idaho State Police provided Sgt VanLueven with a USB drive containing the extraction. Sgt VanLueven then provided the USB drive to me and it was placed into the secure forensic lab at the Moscow Police Department. An examination will be completed at my earliest convenience.

Since the warrant was not served, I did not complete a warrant return receipt as nothing was collected. Court documents were sent to the Latah County Prosecutor's Office to be returned to the court.

Initial Interviews

Case # 22-M09903

Date: 11/15/2022

On November 13, 2022, I was directed to interview potential witnesses in regards to the incidents at 1122 King Road. The following interviews were conducted at the Moscow Police Department.

Interview 1:

Dylan Mortensen [REDACTED] PH: [REDACTED]-4782

Address: 1122 King Rd

On 11/13/2022 Dylan Mortensen was interviewed in regard to the homicide investigation at 1122 King Road. Dylan said she was a resident of the house where the incident occurred. Dylan said she was at a Sigma Chi party, at around 1030 hours on 11/12/2022, where she was drinking. Dylan said she went to "[REDACTED] house". Dylan said she believed she arrived home between 0030 hours and 0100 hours on 11/13/2022. Dylan said she thought Bethany arrived home at around 20 minutes after she arrived.

Dylan said she believed Maddie and Kaylee arrived home at around 0130 or 0200 hours on 11/13/2022. Dylan said up to this nothing weird had happened during the night. Dylan said she and her friend "[REDACTED]" came home, followed by Bethany from Sigma Chi. Dylan said "[REDACTED]" lived at the Pi Beta Phi house and Bethany was her roommate at the residence. Dylan said when Maddie Mogen and Kaylee Gonclaves came home from the corner club at the same time, and everyone went to bed.

Dylan was asked about the layout of her house. Dylan said Kaylee's room was directly above her room. Dylan said she lived on the 2nd floor and Kaylee lived on the 3rd floor. Dylan said Kaylee and Maddie both live upstairs on the 3rd floor in separate rooms. Dylan said Xana lived closest to the bathroom on the 2nd floor and Bethany lived on the first floor.

When asked about Murphy, Dylan said it was a dog owned in common between Kaylee and her ex-boyfriend Jack. Dylan said there were no apparent issues between Kaylee and Jack. Dylan said Maddie had a boyfriend named "[REDACTED]" who was in Boise at the time of the incident. Dylan indicated Xana was dating Ethan Chapin who was in the room with her at the time of the incident. Dylan did not know of anyone who would want to hurt Ethan, when she was asked. Dylan was asked if she saw any cars in the area that should not be there. Dylan said "No I was

not really looking at that."

Dylan said she woke up at around 0400 hours on 11/13/2022, where she could here Kaylee and Murphy, the dog, dancing. Dylan said she knew it was Kaylee because she recognized her voice and could hear Murphy barking. Dylan said she heard Kaylee go upstairs and say "There is someone here." Dylan said thought she heard Kaylee run back down the stairs. Dylan said Kaylee sounded scared when she made this statement.

Dylan said at this time she jumped up locked the door because she did not know what else to do. Dylan said she called out Kaylee's name and did not indicate if she got a response. Dylan said she then tried to call Kaylee, Xana and Maddie on their phones. Dylan was asked if she saw anyone come downstairs or heard anything. Dylan said, "No, I don't even know how they got in. We're usually pretty good about locking doors and never had problems before. I was just really random."

When asked again about the series of events, Dylan said she opened the door when she cried out to Kaylee, then closed the door because she was scared. Dylan said she then opened the door again and heard who she thought was Kaylee, but could have been Xana, crying in the bathroom. Dylan said she then heard a man's voice say "It's OK I'm gonna help you." Dylan said it was weird because the statement was not in a nice way and the voice was one she had never heard before.

Dylan said she called out to Kaylee again and there was no crying after and she did not know what happened after that. Dylan said she opened the door again and "the guy" is right there. Dylan described the male as approximately her height (5'10") or a few inches taller, not skinny but athletic build. Dylan said the suspect was wearing all black with masks that covered just his forehead and goes around his face. Dylan showed with her hands the mask exposed his nose but covered the mouth area.

Dylan said she believed the suspect was white but did not remember eyebrow color or what his eyes looked like. Dylan said when she saw the suspect, he saw her and just left. Dylan said she believed he was holding something near his stomach or belt line. Dylan used both hands to point straight out from her abdomen. Dylan then moved her hands apart and back together to simulate a bulge. Dylan said this area was black in color and she thought now maybe it was a gun. Dylan said the unknown object had an arrow shape. Dylan seemed really unsure and said she was tired during the event.

Dylan was asked how long she believed it was from the time Kaylee said "Someone is here", to when she saw the suspect. Dylan said she thought it was about 10 or 20 minutes. Dylan went on to say she was "in and out of it" and she did not fully remember the incident. Dylan was asked where the suspect was at in the residence when Dylan saw him. Dylan said the suspect was between her bedroom door and the kitchen. Dylan said she remembered watching the suspect go out the kitchen door and leave. Dylan said at this time she closed her door and locked it as fast as she could. Dylan said the suspect did not walk toward her or say anything.

Dylan said once the suspect left she immediately called Bethany. Dylan said Bethany informed her she heard a sound that sounded like a firework. Dylan then said she told Bethany she called everyone and they are not answering. Dylan said she was in and out of it and believed everyone was just asleep. Dylan said she then went to Bethany's room locked the door and went to bed. Dylan said she woke

up at around 1100 or 1200 hours and called her roommates and no one answered. Dylan said she called Hunter. Hunter came to the residence, went upstairs and told Dylan they needed to call law enforcement immediately. Dylan was asked if there was anything else she wanted to share. Dylan said the noise Bethany described the noise as a "loud boom", but Dylan did not hear it.

Dylan was asked if any of her roommates shared any weird experiences in the last couple weeks, or calls or texts. Dylan said "No, it's been all normal. Nothing weird at all. Nothing really weird happens in Moscow usually." When asked if there were any altercations at the Sigma Chi party. Dylan said no everything was normal. Dylan mentioned again she was with Dylan and Xana at the party. Dylan was asked if anyone was having sexual relations with anyone they shouldn't be. Dylan said no.

Dylan brought up an incident which occurred about a month prior. Dylan said she and Bethany remembered Kaylee saw a shadow while she was taking Murphy at side. Dylan said Kaylee also mentioned when she was at Winco 2 or 3 weeks prior, an individual was following her. Dylan also said she arrived home one time and the door to the residence at 1122 King Road was found open. Dylan said she did not believe the slider door was locked the night 11/12/22. Dylan said she hear Murphy barking a lot around 0400 hours 11/13/22 when Kaylee went upstairs. Dylan said she heard Murphy go outside barking as well. Dylan was unsure if Murphy would chase a suspect outside. Dylan said she did not remember if the suspect who ran left the slider door open.

Interview 2:

Hunter I Johnson [REDACTED] 8709

Address: [REDACTED]

Hunter said around 1200 hours on 11/13/2022, Dylan called Emily (Hunter's Girlfriend). Dylan told Emily she thought something "was not right in her house" Dylan also told Emily she heard or saw a man in her house the night prior. Dylan asked Emily and Hunter to come over and make sure everything was OK because she locked herself in Bethany's room. Hunter said he was the first person to get to the residence. Hunter said he entered the code to the front door where Bethany and Dylan were in Bethany's room on the first floor. Dylan and Bethany were telling Hunter they did not know what was going on.

Hunter said he went up the stairs and immediately went into Xana's room. Hunter said this was the only room he went into. Hunter said when he approached the door it was only partially open. Hunter said when he opened it, he saw Xana and Ethan. Hunter said he initially did not realize all the blood was dried blood in the room. Hunter said he thought at first they had been drunk and left a mess. Hunter said when he stood there for a moment he began to realize what he was seeing. Hunter said Bethany and Dylan were uncontrollably crying. Hunter said he told them to get out of the house and call law enforcement.

Hunter said he then went to the kitchen and grabbed a knife from the drawer. Hunter said he then went into the room and checked the closet to make sure there was not anyone else in the room. Hunter said he checked for a pulse on both Xana and Ethan. Hunter said both of the bodies had rigor mortis and were cold with no breath or pulse. Hunter said he believed the two had been deceased for a while. Hunter said he believed he left the knife on the folding table in the living room. Hunter said Emily, Josie and [REDACTED] started to enter the house and come up the stairs. Hunter told them to get out of the residence. Hunter said this was about the time Moscow PD arrived on scene. Hunter said the officer told him

to stay where he was at. Hunter said he did not know if anyone else was upstairs as he had not gone anywhere else in the house. Hunter said he had trouble comprehending what he was seeing.

Hunter said he was not at the Sigma Chi party the night prior. Hunter said he and Ethan were texting the night prior (11/12/22) by phone. Hunter said Ethan wanted him to come over but Hunter chose not to. Hunter said he knew Ethan since Fall of 2021. Hunter said he was in Phi Delta Theta and Ethan was a member of Sigma Chi. Hunter indicated Josie and Emily were in the same sorority and were roommates. Hunter said [REDACTED] who was also present was in the fraternity Delta Tau Delta and was currently dating Josie. Hunter said he and [REDACTED] stayed at Josie's apartment with Emily and Josie the night of 11/12/22. Hunter was asked when was the last time he was at 1122 King Road.

Hunter indicated he was last at the residence on 11/12/22 where he was "pre-gaming for the vandals football game." Hunter said he got to the residence at around 1200 hours or 1300 hours and left at about 1430 hours to go to a different party. Hunter said the last time Emily was at 1122 King Road was Friday 11/11/22. Hunter did not know of anyone who had issues with Ethan and Xana dating. Hunter estimated Xana and Ethan were dating for 8 months. Hunter said he knew Xana very well through his girlfriend Emily. Hunter said he was not very familiar with Maddie or Kaylee. Hunter allowed pictures to be taken of his phone of the conversations between him and Ethan.

Interview 3

[REDACTED] 8109
Address: [REDACTED]

[REDACTED] said she text Bethany at 1120 hours, on the morning of 11/13/22. [REDACTED] asked Bethany if she was awake. [REDACTED] said Bethany called her back at 1149 hours. Bethany told [REDACTED] she and Dylan were in Bethany's room. [REDACTED] said Bethany was freaked out because her roommates were not answering the phone. [REDACTED] said she heard Dylan on the phone in the background saying "I saw something." [REDACTED] said Bethany asked her to come over to 1122 King Road and pick her up. [REDACTED] said Bethany text her while she was driving there, and said Emily and Hunter were on the way as well. [REDACTED] said as she arrived MPD units were arriving as well. [REDACTED] said she did not go to the Sigma Chi party but went to a different one instead. [REDACTED] said Bethany and Dylan came to this other party after she left Sigma Chi. [REDACTED] estimated Dylan left her party at 0030 hours and Bethany left her party at about 0100 hours on 11/13/2022.

[REDACTED] said she was in Pi Beta Phi with Dylan, [REDACTED] Bethany and Xana. [REDACTED] said Xana and Maddie were both in Pi Beta Phi but the dropped out and Kaylee was in Alpha Phi but dropped as well. [REDACTED] suspected they girls dropped their respective sororities because of issues with other girls in the houses. [REDACTED] specifically cited girls on the "executive board" who tell other members what to do. [REDACTED] suspected this was what they did not like. [REDACTED] confirmed she, [REDACTED] Bethany and Dylan were still active members in Pi Beta Phi. [REDACTED] said the girls who were still active members of the sorority who chose to not live in the house did so because of money issues. [REDACTED] said Maddie was Bethany's Big Sister in the sorority house.

[REDACTED] said she knew Kaylee saw a dark figure staring at her from the tree line when she took her dog Murphy out to pee. Jenna said this occurred about a month ago at 1122 King Road. [REDACTED] said there has been light hearted talk and jokes made about a stalker in the past. [REDACTED] said all the girls were slightly nervous

about it being a fact though. [REDACTED] did not indicate any social media issues or issues between the girls who lived together. [REDACTED] said there was no issue with girls from the Pi Beta Phi sorority and the residence at 1122 King Road. [REDACTED] said the front door had issues with locking and sometimes it could be opened without a code. [REDACTED] said she did know the code to the front door. [REDACTED] said she was unsure if the residence kept the back-sliding door locked regularly.

Interview 4

[REDACTED] PH: [REDACTED] 4114
Address: [REDACTED]

[REDACTED] said he did not go to the Sigma Chi Party. [REDACTED] said he went to sleep at 2000 hours 11/12/22, at Josie's apartment on Taylor Ave. [REDACTED] said he woke up around 0200 or 0300 hours [REDACTED] said he Josie and Emily were up talking in the living room of the apartment until about 0500 hours on 11/13/22. [REDACTED] indicated Hunter was present but not awake during this time. [REDACTED] said [REDACTED] said they all went to bed at this time and woke up again around what he thought was 0900 hours.

[REDACTED] said Hunter and Emily came into the room where he and Josie were. [REDACTED] said Dylan had called Emily around 1000 hours, and sounded scared. [REDACTED] said Dylan told Emily someone had been in her house last night. [REDACTED] said Dylan and Bethany ran down stairs and locked themselves in a room. [REDACTED] said, Dylan informed them she did this because of her seeing someone in the house and Dylan could only see his nose and his chin. [REDACTED] said Dylan was freaking out and wanted them to come over to 1122 King Road.

[REDACTED] said he walked with Emily, Josie to 1122 King road from Josie's apartment on Taylor Ave. [REDACTED] said Dylan and Bethany walked out of the house crying. [REDACTED] said Hunter arrived to the residence first, because he left before them. [REDACTED] said he went into the downstairs door and Hunter told him not to come up the stairs. [REDACTED] said he did not know Ethan very well. [REDACTED] said he did not recall any talk between Xana and Josie about boy issues. [REDACTED] said he did not see anything on social media. [REDACTED] recalled an incident from about a month prior, where Dylan said there was a guy stalking her. [REDACTED] said he did not hear anything from the night prior.

My interviews were video recorded and have been uploaded to case file.

Snapchat Warrants

Case # 22-M09903

Date: 11/29/2022

On November 21, 2022, I requested and was granted a warrant for Snap, Inc (Snapchat) for the accounts associated with the following identifiers:

[REDACTED]

[REDACTED]

[REDACTED] 04818 (Kaylee Goncalves)

[REDACTED]

[REDACTED] 2881 (Jack Decouer)

[REDACTED] 4782 (Dylan Mortensen)

[REDACTED] 3185 (Bethany Funke)

On November 21, 2022, at approximately 1827 hours, I logged into the Snap, Inc Law Enforcement Portal located at <https://less.snapchat.com/> and served the warrants.

I received an email from support@snapchat.zendesk.com providing me with internal CaseID# [REDACTED] and CaseID [REDACTED]

On November 28, 2022, Snap, Inc sent two emails stating the files were ready to download. On November 29, 2022, I logged into the portal and downloaded the files provided pursuant to the warrant. These files were downloaded to a computer in the secured computer forensic lab at the Moscow Police Department. An examination of the data will be conducted at my earliest convenience.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to Snap (mailto:support@snapchat.zendesk.com), as this was the originating email address associated with the documents.

Cellphone Warrant Return

Case # 22-M09903

Date: 11/17/2022

On November 17, 2022, I received I began to receive data from the cell phone providers in response to the warrants served on them.

At approximately 1352 hours, I received an email from mail@sf-notifications.com informing me the files from Verizon for the requested phone Call Detail Records and Tower Dump Data was ready to be downloaded. I logged into the ShareFile portal and downloaded the corresponding files.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to the Verizon at mail@sf-notifications.com, as this was the originating email address associated with the documents.

At approximately 1530 hours, I received an email from [REDACTED] ([REDACTED]@inlandcell.com) of Inland Cellular. This email included files containing the data requested regarding the tower dump data.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to the [REDACTED] ([REDACTED]@inlandcell.com), as this was the originating email address associated with the documents.

At approximately 1530 hours, I received an email from AT&T (compcent@att.com) informing me the files from AT&T for the requested phone Call Detail Records and Tower Dump Data. I logged into the Global Legal Demand Center portal and downloaded the corresponding files.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to AT&T (compcent@att.com), as this was the originating email address associated with the documents.

On November 18, 2022, at approximately 1323 hours, I received two emails from T-Mobile (lerinbound@T-Mobile.com). These emails included files containing the data requested regarding the T-Mobile Call Data Records and Tower Dump Data requested.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to T-Mobile (lerinbound@T-Mobile.com), as this was the originating email address associated with the documents.

Witness Phones

Case # 22-M09903

Date: 11/30/2022

On November 13, 2022, I was directed to interview potential witnesses in regards to the incidents at 1122 King Road. During this process, I was tasked with extracting data from the following phones:

Dylan Mortensen

Bethany Funke

Jack Decouer

Emily Alandt

Maizie Chapin

I received signed consent forms from Mortensen, Decour, Alandt and Chapin. I was informed by Cpl Brett Payne, Funke provided verbal consent for her phone to be extracted. The phones were extracted using the following forensic software:

UFED Cellebrite version# 7.58.0.172

Magnet Axiom version# 6.5.0.32778

Upon completion of the extractions, the phones were returned to their owner as promptly as possible. The data extracted was saved to a computer located in the secure forensic computer lab at the Moscow Police Department.

A forensic examination on the phones will be completed at my earliest convenience.

Victim Phone Extractions

Case # 22-M09903

Date: 12/4/2022

On November 15, 2022, I contacted Det David Taylor of the Coeur d'Alene Police Department with a request for an agency assist. I requested assistance unlocking the cell phones of Kaylee Goncalves, Maddie Mogen, Xana Kernodle and Ethan Chapin, the victims in this case. I emailed Det Taylor a copy of the signed warrant describing the phones as being searchable.

On November 16, 2022, the phones were transported to the CDA Police Department for a forensic brute force attempt to unlock them, however Det Taylor stated he was not able to extract any information from the locked phones and the phones were not supported for the brute force pin code extraction. The phones were then returned to the Moscow Police Department on November 17, 2022.

I then asked for assistance from Cpt Tyson Barrett in attempting to gain pin codes from family members to access the data on the devices. I was provided pin codes for Mogen, Kernodle and Chapin, which successfully unlocked the devices. The pin codes provided for Goncalves' phone did not unlock the device.

On the three devices I was able to unlock, I performed advanced logical extractions on the devices at the Moscow Police Department. A report for each device will be completed separately.

On November 20, 2022, I again requested the assistance of Det Taylor in gaining a full-file system extraction on the three unlocked devices. The phones were delivered to CDA Police Department on November 21, 2022. On November 22, 2022, Det Taylor stated he would not be able to complete the extractions.

On November 23, 2022, I went to the CDA Police Department and picked up the phones. I then took them to the Post Falls Police Department and spoke with Det Neil Uhrig. Det Uhrig informed me his forensic tools would not support a full-file system extraction.

On November 25, 2022, I went to the Walla Walla Police Department and spoke with Det Chris Ruchert. Det Ruchert stated her forensic tools would be able to support full-file system extractions on the unlocked devices, and would be able to complete limited extraction on Goncalves' locked phone. I left the phones with Det Ruchert to be extracted.

On November 28, 2022, Det Ruchert informed me the phone extractions were complete and ready to be picked up. On November 29, 2022, Det Justin Deane picked up the phones and returned them to the Moscow Police Department. I received the four devices and placed them in the secure computer forensic lab. The extracted data was copied to the forensic computers and verified by hash values.

An examination of the data will be completed at my earliest convenience.

Yahoo Warrant Goncalves

Case # 22-M09903

Date: 12/4/2022

On December 1, 2022, I applied and was granted a warrant for any data associated with Kaylee Goncalves' Yahoo Account using the following identifiers:

[REDACTED]@yahoo.com

On December 1, 2022, at approximately 1355 hours, the warrant was served via the Yahoo Law Enforcement Portal located at <https://lawenforcementrequests.oath.com>

On December 4, 2022, I received an email from Yahoo stating the data requested pursuant to the warrant were available to download. I received an email with a link to download the data. I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to [REDACTED]@yahooinc.com, as this was the originating email address associated with the documents.

Case # 22-M09903

Date: 12/8/2022

On December 1, 2022, I requested an amended warrant for Meta (the parent company for Facebook and Instagram) for the accounts associated with the following identifiers:

On December 2, 2022 I received a signed warrant. On December 4, 2022, at approximately 1331 hours, I logged into the Meta Law Enforcement Portal located at <https://www.facebook.com/records/> and served the warrant.

During the service of the warrant, I found I was not able to add the phone number of [REDACTED] 2881 as an identifier for Jack Decouer's account. This information was not entered into the portal.

On December 8, 2022, Meta sent an email stating the files were ready to download. I logged into the portal and downloaded the files provided pursuant to the warrant. These files were downloaded to a computer in the secured computer forensic lab at the Moscow Police Department. An examination of the data will be conducted at my earliest convenience.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to Meta (records@records.facebook.com), as this was the originating email address associated with the documents.

Video Capture

Case # 22-M09903

Date: 12/22/2022

On December 22, 2022, I was tasked with re-installing the exterior camera, known as the "Lightbulb Camera" at 1112 King Road, to capture some comparison video and audio. I contacted one of the tenants, [REDACTED], who gave me permission to access her residence and conduct the recording.

Upon arrival, I unplugged the power to the current router and removed the camera from the light socket on the exterior of the residence. I then powered on the router I had secured from the residence earlier and installed the camera I secured as evidence earlier into the light socket. While installing the camera, I hear a crack and felt the lightbulb base mount become loose. It should be noted the approximate temperature outside while installing the camera was between 5 and 9 degrees.

I previously had installed a new SD Card into the camera and powered on the router and camera at the Moscow Police Department to ensure the camera was functional.

I then was able to monitor the camera using the Homeye Pro app on my phone. Cpl Brett Payne was able to drive a white colored vehicle into the view of the camera. Sgt Dustin Blaker parked a vehicle near the residence and closed the doors and trunk on a vehicle for audio comparison. A K9 Unit from Lewis County Sheriff's Office was utilized to capture barking audio comparison from the residence.

Upon completion of the data collection, I powered off the evidentiary router and removed the camera from the light socket. In doing so, the base detached from the camera and a wire became disconnected. I gathered the router and camera, placed them back into their evidentiary bags and returned them to the secure computer forensic lab.

I reinstalled the current camera and reconnected the power to the new router. I contacted [REDACTED] to ensure she could access her camera, and she responded in the affirmative. Cpl Payne and I then ensured the residence was locked and left the residence without further incident.

Upon returning to the Moscow Police Department, I was able to download the

videos collected and they were saved to the server located in the secure computer forensic lab.

Extreme Network Warrant

Case # 22-M09903

Date: 1/5/2023

On December 12, 2022, I applied for and was granted a warrant for Extreme Networks to assist in unlocking a laptop located in the residence located at 1122 King Road. The laptop was being used by Kaylee Goncalves as a paid employee of Extreme Networks. The warrant requested permission for Extreme Networks to unlock or provide a password for the laptop.

Sgt Neil Uhrig assisted in the forensic examination of the laptop. I forwarded the warrant to Sgt Uhrig who then served the warrant on December 12, 2022, at approximately 1519 hours via email to [REDACTED]@hupd.harvard.edu.

On December 14, 2022, Sgt Uhrig received an email providing the encryption key for the laptop. This allowed the data from the laptop to be forensically acquired and examined by Sgt Uhrig.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was emailed to Extreme Networks ([REDACTED]@hupd.harvard.edu), as this was the originating email address associated with the warrant.

Kohberger Phone Data

Case # 22-M09903

Date: 1/10/2022

On December 29, 2022, based on the above information, the Latah County Court signed and order finding probable cause for the Criminal Complaint charging Burglary, Idaho Code 18-1401, 1403, and four counts of Murder in the First Degree, Idaho Code 18-4001, 4002, 4003, 4004, all Felonies. A warrant of arrest was issued for Bryan C. Kohberger.

On December 29, 2022, Bryan Kohberger was arrested at his family's home 119 Lansden Drive, in Albrightsville, Pennsylvania. That same day a Pennsylvania magistrate signed a search warrant for the residence which included Bryan Kohberger's cell phone. Bryan Kohberger's cell phone was taken into evidence as part of that search warrant. Kohberger's cell phone device is currently in evidence at the FBI - Philadelphia Regional Computer Forensic Laboratory (PHRCFL) located at [REDACTED]. The phone data was extracted by FBI SSA [REDACTED] subsequent to the warrant being served.

On January 9, 2023, I received a hard drive from SSA [REDACTED] which contains a copy of the data extracted from the phone belonging to Kohberger. The data is saved on a Seagate 2TB External USB Drive with serial number #NA87T1GN and is labeled as Philadelphia RCFL evidence [REDACTED]. I applied for and was granted a warrant seeking the evidence from the hard drive provided by Pennsylvania which contains a forensic image of Bryan Kohberger's phone which was stored in the secured computer forensics lab at the Moscow Police Department.

At 1550 hours on January 9, 2023, I served the warrant on the hard drive located in the forensics lab. Pursuant to the warrant I downloaded the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also left a copy of the receipt and warrant with the drive, which was placed back into evidence.

I began examining the data for any accounts linked to the phone and Kohberger with other electronic service providers, such as Facebook, Snapchat, etc. I

located the following installed applications, website history, screenshots and usernames/passwords associated with an electronic service provider:

YikYak
Linkedin
Reddit
Twitter
Tinder
Dropbox
Washington Trust Bank
Paypal
Youtube
TikTok/Musically
Amazon
VisaPrePaidProcessing.com
When2Meet
Activision
GroupMe
NetTeller
Hulu
Instagram
Facebook
PSECU
Spotify
Booking.com
Travelocity
Strava
NordVPN

These electronic service providers may be storing data relevant to the investigation, which may have been deleted from the device. I will be requesting assistance from the Latah County Prosecutor's Office to apply for warrants to these companies for any data from accounts related to the following identifiers located in the phone data:

BryanChristopher1994@gmail.com
yewsirneighm@gmail.com
bk5781@desales.edu
(509) 592-8458
[REDACTED]

I will complete a complete examination of the data at my earliest convenience.

On January 25, 2023, the warrant was granted and signed by Magistrate Megan Marshal with seven (7) days to serve the legal process. On January 30, 2023, at approximately 1203 hours, the warrant was served via the Dropbox Law Enforcement Portal (<https://dropbox-legal.force.com>). I received an internal reference

On February 2, 2023, I received an email from Dropbox stating the data requested pursuant to the warrant was available to download. I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

In reviewing the data, it showed the account belonged to Bryan Kohberger with an email address of bk5781@desales.edu. The account was created on March 5, 2021. It showed the last log-in date of March 9, 2021 0240 UTC.

there was three (3) files in the account data. Two appear to be associated with using the Dropbox service. The third was an MP4 video titled, "Kids for Cash.mp4." This appears to be a movie released in 2013 and IMDB.com provides the following as an overview:

Kids for Cash is a riveting look behind the notorious judicial scandal that rocked the nation. Beyond the millions paid and high stakes corruption, Kids for Cash exposes a shocking American secret. In the wake of the shootings at Columbine, a small town celebrates a charismatic judge who is hell-bent on keeping kids in line until one parent dares to question the motives behind his brand of justice. This real life thriller reveals the untold stories of the masterminds at the center of the scandal and the chilling aftermath of lives destroyed in the process a stunning emotional roller coaster.

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to records@dropboxlegal.com, as this was the originating email address associated with the documents.

Twitter Kohberger Warrant

Case # 23-M09903

Date: 1/26/2023

On January 24, 2023, I applied for a warrant for the user subscriber information and user data associated with a Twitter account of Bryan Kohberger with the any of the following identifiers:

BryanChristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

phone number (509) 592-8458

On January 25, 2023, the warrant was granted and signed by Magistrate Megan Marshal with seven (7) days to serve the legal process. I attempted several times to serve the warrant via the Law Enforcement Portal (<https://legalrequests.twitter.com>), however Twitter would not recognize my city issued email as government issued. An extension to the warrant service was requested and granted by the court.

I was finally able to gain access February 6, 2023, at approximately 0913 hours, the warrant was served via the Twitter Law Enforcement Portal I received an email shortly after the submission, confirming the receipt of the request and assigning the internal Case [REDACTED].

On February 12, 2023, I received an email from Twitter stating the data requested pursuant to the warrant was available to download. On February 15, 2023, I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

In reviewing the contents, I found the following data:

"accountId" : [REDACTED]
"phoneNumber" : [REDACTED] 7312"
"userCreationIp" : [REDACTED]
"createdAt" : "2015-10-21T20:56:21.500Z",
"email" : "bryanchristopher1994@gmail.com",
"createdVia" : [REDACTED],
"username" : [REDACTED],
"accountDisplayName" : [REDACTED]

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to support@twitter.com, as this was the originating email address associated with the documents.

Reddit Kohberger Warrant

Case # 23-M09903

Date: 1/26/2023

On January 24, 2023, I applied for a warrant for the user subscriber information and user data associated with a Reddit account of Bryan Kohberger with the any of the following identifiers:

BryanChristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

phone number (509) 592-8458

On January 25, 2023, the warrant was granted and signed by Magistrate Megan Marshal with seven (7) days to serve the legal process. January 26, 2023, at approximately 0906 hours, the warrant was served via email (lawenforcement@reddit.com).

On February 8, 2023, I received an email from Reddit stating the data requested pursuant to the warrant was available to download. On March 22, 2023 I downloaded the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department. The email stated they located records related to the BryanChristopher1994@gmail.com and bk5781@desales.edu emails.

In reviewing the contents associated with the BryanChristopher1994@gmail.com email, I found the account name was [REDACTED] and the registration date was September 24, 2021 at 1054 UTC. The registration IP was [REDACTED], which showed a location near Albrightsville, Pennsylvania with PenTeleData. The email address for this account showed as verified.

In reviewing these files, I located a file labelled comment_votes.csv. This file contained the following permalinks in the data:

https://www.reddit.com/r/Felons/comments/v7z9kf/research_participation_needed_repost/ibo3maq/

https://www.reddit.com/r/Felons/comments/vlyajl/research_participation_needed/iar65f/

https://www.reddit.com/r/Felons/comments/v7z9kf/research_participation_needed_repost/ibnvh3b/

https://www.reddit.com/r/Felons/comments/v7z9kf/research_participation_needed_repost/
https://www.reddit.com/r/Felons/comments/v85835/stopping_studiesresearchpollquestions_for_felons/
https://www.reddit.com/r/prisons/comments/v7zaic/research_participation_needed_repost/
https://www.reddit.com/r/KidsAreFuckingStupid/comments/v832d3/theres_accidents_then_theres_these/

I sent an email to Reddit to ask for clarification on what these data file directly relate to, but have not received clarification at the time of this report.

In reviewing the contents associated with the bk5781@desales.edu email, I found two accounts associated with the email. The first account name was [REDACTED] and the registration date was December 30, 2022 at 2158 UTC. The registration IP was [REDACTED], which showed a location near Tampa, Florida with Frontier Communications. This account also showed additional IP logins from Florida on January 2, 2023, January 4, 2023, January 4, 2023 and January 11, 2023. The email address showed it was not verified. During these dates, Kohberger was incarcerated and was not in Florida. With this information, I believe this account was a fake account.

The second account name was [REDACTED] and the registration date was April 1, 2022 at 2039 UTC. The registration IP was [REDACTED], which showed a location near Albrightsville, Pennsylvania with PenTeleData. A second login IP was registered as [REDACTED] on November 21, 2022 at 2210 UTC, which showed a location near Kansas City, MO with Level 3 Communications. This IP address also showed a high probability of being a VPN exit point. The email address showed it was verified.

In reviewing these files, I located a file labelled comment_votes.csv. This file contained the following permalinks in the data:

https://www.reddit.com/r/Felons/comments/vlyajl/research_participation_needed/ias4uew/

https://www.reddit.com/r/Felons/comments/vlyajl/research_participation_needed/ia t28zs/

Subject: Research Survey

"Hello,

I attempted to post a survey to the r/Prison sub-reddit, but my post was automatically removed. I imagine that this may be due to the lack of activity on my account. As I have seen others post research recruitment posts on this sub-reddit within the past few months, would it be possible to obtain approval to submit a recruitment post to r/Prison? The recruitment post has my information in it, and the survey itself has an informed consent form that confirms my affiliation. I have been able to post my survey to other sub-reddits such as r/ExCons and r/Felons. You can look at the specifics of my recruitment post by looking at these posts.

Thanks in advance,

Bryan"

The text associated with these posts was:

"Hello,

My name is Bryan, and I am inviting you to participate in a research project that seeks to understand how emotions and psychological traits influence decision-making when committing a crime. In particular, this study seeks to understand the story behind your most recent criminal offense, with an emphasis on your thoughts and feelings throughout your experience. In the event that your most recent offense was not one that led to a conviction, you may still participate. Additional surveys are included after the open-ended section as to best understand your unique traits. The study should take about 30 minutes to complete fully.

Your identity and all answers provided are completely confidential, and the link to the survey is also an anonymous link. This research has been approved by the DeSales University IRB.

Participants must be 18 years of age and older.

If you opt to participate, you may terminate participation at any time and for any reason.

If you have any questions about this research, you may contact the research team via email:

Student Investigator: Bryan Kohberger at
bk5781@desales.edu.

Anonymous link to the study:

[https://desales.iadl.qualtrics.com/jfe/form/SV_ex3bk7xDldepWgC](https://desales.iadl.qualtrics.com/jfe/form/SV_ex3bk7xDldepWgC)

Thank you for your time!"

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to lawenforcement@reddit.com, as this was the originating email address associated with the documents.

Snapchat Technical Issue

Case # 22-M09903

Date: 4/11/2023

On April 7, 2023, I received an email from Snapchat in reference to the warrant served on November 21, 2022 for the accounts of [REDACTED], [REDACTED]-4818 (associated with [REDACTED]), [REDACTED]-2881 (associated with [REDACTED]), [REDACTED] 4782 (associated with [REDACTED]), [REDACTED]-3185 (associated with [REDACTED])

This email stated Snap Inc. discovered a "technical issue appears to have impacted the records produced on or about November 28, 2022." The email continued by stating, "As a result of the technical issue, Snap may not have produced certain data responsive to your Search Warrant. Therefore, after remediating the technical issue, Snap is regenerating the production responsive to your Search Warrant." This was in linked to Snapchat reference [REDACTED], which was the reference for the warrant served on Snapchat for the previous accounts.

I was able to log into the law enforcement portal and download the data. This data was stored in the secure forensic computer lab at the Moscow Police Department.

SUPPLEMENTAL NARRATIVE:

Supplement number: 185

Reporting Officer: Lawrence Mowery

Date: 11:24:55 04/13/23

Snapchat Extended Warrant

Case # 23-M09903

Date: 4/13/2023

On March 30, 2023, I applied for a warrant for user data from June 23, 2022, to August 1, 2022 associated with the Snapchat accounts with the any of the following identifiers:

Xana Kernodle with identifier [REDACTED]
Kaylee Goncalves with identifier "[REDACTED]4818"
Ethan Chapin with identifier "[REDACTED]"
Dylan Mortensen with identifier "[REDACTED]34782"
Bethany Funke with identifier "[REDACTED]3185"
Madison Mogen with identifier [REDACTED]

A previous warrant to Snapchat requested the date range "August 1, 2022, to November 20, 2022." Based on information obtained from Washington State University, Bryan Kohberger moved to the Pullman, Washington on or about June 23, 2022. I requested both historical records and real time/provisional records in order to determine if Kohberger had any interactions with the victims leading up to the November 13, 2022 crime.

On March 30, 2023, the warrant was granted and signed by Magistrate Megan Marshal with fourteen (14) days to serve the legal process. On April 3, 2023, at approximately 1036 hours, the warrant was served via the Snapchat Law Enforcement Portal (<https://less.snapchat.com/>). I received an email shortly after the submission, confirming the receipt of the request and assigning the internal reference [REDACTED]

On April 13, 2023, I received an email from Snapchat stating the data requested pursuant to the warrant was available to download. I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to lawenforcement@snapchat.com, as this was the originating email address associated with the documents.

ATT Extended Warrant

Case # 23-M09903

Date: 4/13/2023

On March 29, 2023, I applied for a warrant for the Call Data Records for Maggie Mogen [REDACTED]-1278 and Xana Kernodle [REDACTED]-1224 between the time period of: June 23, 2022, to August 1, 2022.

A previous warrant requested the date range "August 1, 2022 to present." Based on information obtained from Washington State University, Bryan Kohberger moved to the Pullman, Washington on or about June 23, 2022. I requested both historical records and real time/provisional records in order to determine if Kohberger had any interactions with the victims leading up to the November 13, 2022 crime.

On March 30, 2023, the warrant was granted and signed by Magistrate Megan Marshal with fourteen (14) days to serve the legal process. On April 3, 2023, at approximately 0912 hours, the warrant was served via email (gldc@att.com). I received an email shortly after the submission, confirming the receipt of the request.

On April 12, 2023, I received an email from AT&T with the data requested pursuant to the warrant was available to download. On April 13, 2023, I downloaded the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

A copy of the data was provided to the FBI CAST Team for analysis.

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to AT&T Global Legal Demand Center (compcent@att.com), as this was the originating email address associated with the documents.

Apr 7, 2023, 6:29 PM UTC

Hello,

Snap Inc. ("Snap") discovered that a technical issue appears to have impacted the records produced on or about November 28, 2022 pursuant to the above-referenced legal process dated November 21, 2022 ("the Search Warrant") that pertained to the Snapchat account(s) [REDACTED], [REDACTED], [REDACTED]-4818 (associated with [REDACTED]), [REDACTED]-2881 (associated with [REDACTED]), [REDACTED]-4782 (associated with [REDACTED]), [REDACTED]-3185 (associated with [REDACTED]) ("the Account(s)").

As a result of the technical issue, Snap may not have produced certain data responsive to your Search Warrant. Therefore, after remediating the technical issue, Snap is regenerating the production responsive to your Search Warrant, which you will receive in a separate email from LEO Delivery <no_reply@snapchat.com>. Please note that this production will contain the information previously produced on November 28, 2022 as well as additional data. As such, you should consider this production a superseding production. Please also note that the provided production link will expire 30 days following this communication.

You may respond to this email if you have any questions about this matter.

Regards,

Snap Inc. Law Enforcement Operations

Instagram Extended Warrant

Case # 23-M09903

Date: 5/10/2023

On March 30, 2023, I applied for a warrant for user data from June 23, 2022, to August 1, 2022 associated with the Instagram accounts with the any of the following identifiers:

Bethany Funke with identifier [REDACTED]

Dylan Mortensen with identifier [REDACTED]

Ethan Chapin with identifier [REDACTED]

Xana Kernodle with identifier [REDACTED]

Kaylee Goncalves with identifier [REDACTED]

A previous warrant to Facebook requested the date range "August 1, 2022, to November 20, 2022." Based on information obtained from Washington State University, Bryan Kohberger moved to the Pullman, Washington on or about June 23, 2022. I requested both historical records and real time/provisional records in order to determine if Kohberger had any interactions with the victims leading up to the November 13, 2022 crime.

In attempting to serve the warrant, I found the identifier for Kernodle should have been [REDACTED] without the "." Separator. I requested assistance for a new warrant from the Latah County Prosecutor's Office for the correct account.

On March 30, 2023, the warrant was granted and signed by Magistrate Megan Marshal with fourteen (14) days to serve the legal process. On April 3, 2023, at approximately 1055 hours, the warrant was served via the Facebook Law Enforcement Portal (<https://www.facebook.com/records/>). I received an email shortly after the submission, confirming the receipt of the request and assigning the internal reference [REDACTED]

On May 9, 2023, I received an email from Meta stating the data requested pursuant to the warrant was available to download. I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

I was able to download the account data for:

[REDACTED]

However, the data files for [REDACTED] were not available. I ensured the account was on the warrant served to Meta, and it was. I then went to verify the account was listed in the online portal, which it was not. During service of the warrant, the portal required me to list the accounts on the warrant. This account did not get listed on the form. I sent a follow-up response to Meta asking for the data requested on the warrant.

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to records@records.facebook.com, as this was the originating email address associated with the documents.

Kohberger AT&T Data

Case # 22-M09903

Date: 5/3/2023

I was assigned the task of examining the Call Detail Records (CDRs) that were obtained from AT&T pursuant to a warrant served by Cpl Brett Payne for the time frame of November 12, 2022 at 0000 hours through November 14, 2022 at 0000 hours PST. These records were requested for the account associated with the phone number (509) 592-8458, known the "8458 phone." This phone showed the subscriber as Brian Kohberger.

I was specifically requested to examine the records showing connectivity to cell towers between the hours of 0200 and 0600 PST (1000 and 1400 UTC), as this was the timeframe surrounding the homicides at 1122 King Road. Although the records contained records for voice, data, and SMS usage in the 48-hour data set, I only located 27 data usage records in the specified timeframe.

To assist in mapping the location of the cellular towers and the direction of their sector antennas I imported the data into CASTViz version # 30.0.0.

The 8458 phone connects with several different cell towers in Pullman, Washington between 0200 hours and 0225 hours. The phone appears to be traveling within or near the city of Pullman, Washington.

At 0242 hours the phone connects to a tower near North East Skyview Drive on the Washington State University Campus.

At 0247 hours, the phone connected to a tower on Observation Drive on the Washington State University Campus.

In continuing to examine the data, I found an approximately 2-hour period with no interactions between the 8458 phone and the AT&T network between 0247 and 0448 hours.

The phone connects to a tower located near Paradise Ridge, south of Moscow, Idaho at 0448 hours.

The phone connects with towers south of Moscow, Idaho, which is consistent with travel back to Pullman, Washington utilizing towers along the route.

From my training and experience, I know cellular devices can send and receive data to cellular towers with the user's input (such as surfing the internet) or without the user's input (system data). The normal reasons for a cellular device to not show connections to a cellular tower are the device is not in range of the tower's signal, the device is physically blocked from receiving/sending (such as a faraday bag), the device is in airplane mode, or the device is powered off.

I contacted AT&T Global Legal Demands Center and confirmed devices on the AT&T network connect at least every 60 minutes, if no user connectivity is initiated.

I verified the location of the several towers shown in CASTViz and confirmed their locations with the data in the Call Detail Records.

Google Linked Accounts Warrant

Case # 22-M09903

Date: 5/23/2023

On February 23, 2023, I applied for a warrant for any Gmail accounts linked to Bryan Kohberger by recovery email, cookie, Android ID, Creation IP or phone number associated with any of the following identifiers:

(509) 592-8458

[REDACTED]-7312

bryanchristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

On February 24, 2023, the warrant was granted and signed by Magistrate Megan Marshal with 14 days to serve the legal process. On February 25, 2023, at approximately 1635 hours, the warrant was served via the Google Law Enforcement Portal (<https://lers.google.com>). I received an email shortly after the submission, confirming the receipt of the request and assigning the internal reference [REDACTED]

On February 27, 2023, I received an email from Google stating the data requested pursuant to the warrant was available to download. I was unavailable to download the data, and requested assistance from Cpl Brett Payne. Cpl Payne logged into the Law Enforcement Portal and began downloading the files and they were retained at the Moscow Police Department.

A warrant return receipt and affidavit were completed by Cpl Payne and these documents were sent to the Latah County Prosecutor's Office to be returned to the court.

Instagram Extended Warrant

Case # 22-M09903

Date: 5/23/2023

On April 18, 2023, I applied for a warrant for user data from June 23, 2022, to November 21, 2022 associated with the Instagram accounts with the any of the following identifiers:

Xana Kernodle with identifier [REDACTED]

Madison Mogen with identifier [REDACTED]

A previous warrant to Facebook requested the date range "August 1, 2022, to November 20, 2022." Based on information obtained from Washington State University, Bryan Kohberger moved to the Pullman, Washington on or about June 23, 2022. I requested both historical records and real time/provisional records in order to determine if Kohberger had any interactions with the victims leading up to the November 13, 2022 crime.

In attempting to serve the previous warrant, I found the identifier for Kernodle should have been [REDACTED] without the "." Separator. I requested assistance for a new warrant from the Latah County Prosecutor's Office for the correct account. The account for Mogen had not been previously requested.

On April 19, 2023, the warrant was granted and signed by Magistrate Megan Marshal with fourteen (14) days to serve the legal process. On April 20, 2023, at approximately 0808 hours, the warrant was served via the Facebook Law Enforcement Portal (<https://www.facebook.com/records/>). I received an email shortly after the submission, confirming the receipt of the request and assigning the internal reference [REDACTED]

On May 12, 2023, I received an email from Instagram stating the data requested pursuant to the warrant was not available. It appears the user designation [REDACTED] was being considered part of the username. This occurred with the [REDACTED] request previously as well.

A warrant return for no data and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A new warrant with only the usernames will be requested.

TikTok Kohberger Warrant

Case # 22-M09903

Date: 4/3/2023

On January 24, 2023, I applied for a warrant for the user subscriber information and user data associated with TikTok account of Bryan Kohberger with the any of the following identifiers:

BryanChristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

phone number (509) 592-8458

On January 25, 2023, the warrant was granted and signed by Magistrate Megan Marshal with seven (7) days to serve the legal process. January 26, 2023, at approximately 0830 hours, the warrant was served via the TikTok Law Enforcement Portal (<https://law-enforcement-tiktok-uscan.zendesk.com/>). I received an email shortly after the submission, confirming the receipt of the request and assigning the internal reference [REDACTED]

On March 3, 2023, I received an email from TikTok stating the data requested pursuant to the warrant was available to download. I logged into the Law Enforcement Portal and began downloading the files to the forensic computers located in the secure forensic computer lab at the Moscow Police Department.

The email received from TikTok also stated:

Please note that after a diligent search we are unable to locate any TikTok accounts associated with the identifiers "yewsirneighm@gmail.com, bk5781@desales.edu, 5095928458"

In reviewing the contents, I found the account subscriber information of:

Username: [REDACTED]

Signup Device: SM-S908U

Signup date: 11/18/2022 05:01:11PM (UTC +00)

Signup IP: [REDACTED]

Signup method: Google

Binding ID Google: [REDACTED]

Phone number: None

Email: bryanchristopher1994@gmail.com

In searching for the geolocation of the IP address [REDACTED], I found it returned to NordVPN out of Seattle, Washington. NordVPN had been located as an installed app on Kohberger's phone.

No information was provided by TikTok regarding messages sent or received, followers or following accounts, or user created content.

A warrant return receipt and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court. A copy of the receipt was sent to support@law-enforcement-tiktok-uscan.zendesk.com, as this was the originating email address associated with the documents.

Amazon Warrant Kohberger

Case # 22-M09903

Date: 7/5/2023

On April 26, 2023, I applied and was granted a warrant for data related to Amazon purchases and click activity for of the following identifiers:

Bryan C Kohberger

Bryanchristopher1994@gmail.com

██████████-5889

On April 27, 2023, at approximately 1411 hours, the warrant was served via <https://ler.amazon.com/us>. Forensic Account ██████████ with the Federal Bureau of Investigations assisted in the production and service of the warrants.

Later it was found the warrant was dated "March" instead of April. An amended warrant was requested and granted. This warrant was served on May 10, 2023 at approximately 0905 hours, with the assistance of Forensic Account ██████████
██████████

On June 27, 2023, I received an email from FA Douglass. The email was a response from no-reply@ler.amazon.com stating the data was available to download. This email from FA ██████████ included the data return. A copy of the data was copied to a DVD and placed into evidence.

I completed the warrant return receipt and affidavit. These documents were sent to the Latah County Prosecutor's Office to be returned to the court. I also emailed a copy of the receipt to Amazon (no-reply@ler.amazon.com), as this was the originating email address associated with the documents.

Kohberger Paypal OneDrive

Case # 22-M09903

Date: 7/25/2023

In an attempt to locate further online accounts or online service providers utilized by Bryan Kohberger, I began previewing the data forensically acquired from the desktop computer seized from the residence of Bryan Kohberger, located at 1630 NE Valley Road, Apartment 201, Pullman, Washington.

On this device I located references to both Paypal and OneDrive.

Paypal is a commonly used financial service and Paypal reports its services as a "financial technology company operating an online payments system in the majority of countries that support online money transfers, and serves as an electronic alternative to traditional paper methods such as checks and money orders." This service could be linked to additional accounts or show potential transactions important to the case.

Internet artifacts were located on the computer with the following URLs referring to Paypal:

<https://www.paypal.com/signin/authorize?ssoKey=e345e010ala44dd582767d34d5cd00da>

<https://paypalcredit.syf.com/ESecuritySSOPayPal/PayPal/login.action>

<https://www.paypal.com/myaccount/money/flow-transfer/addBank/banks/new>

OneDrive is owned by Microsoft and is reported by Microsoft to be "a file hosting service operated by Microsoft. First launched in August 2007, it enables registered users to share and synchronize their files. OneDrive also works as the storage backend of the web version of Microsoft Office." This service could be linked to additional accounts or show potential transactions important to the case.

The OneDrive app appeared to be installed and set to autorun on the computer.

The program appeared to be installed at the following location on the computer:

C:\Program Files\Microsoft OneDrive\22.232.1106.0002

And appeared to be listed in the Startup Items folder:

C:\Program Files\Microsoft OneDrive\OneDrive.exe

The artifacts located showed OneDrive software was set to run after a reboot/start of the computer. And the program appeared to be last run on November 28, 2022.

The URLs located seem to refer to a specific "resid":

<https://onedrive.live.com/View.aspx?resid=9E1D26621EA2350E!947&wdEmbedFS=1&authkey=!ANKxRgwSUHfwXcQ>

I sent an email to Microsoft in an attempt to clarify if the "resid" was a unique identifier to the user's OneDrive account, but have not received a response at the time of this report.

The OneDrive artifacts also included SharePoint links to URLs, which included references to Washington State University:

https://emailwsu-my.sharepoint.com/personal/bryan_kohberger_wsu_edu/Documents

Microsoft states Sharepoint "empowers teamwork with dynamic and productive team sites for every project team, department, and division. Share files, data, news, and resources. Customize your site to streamline your team's work. Collaborate effortlessly and securely with team members inside and outside your organization, across PCs, Macs, and mobile devices."

From my training and experience I know cloud-based storage, like OneDrive, can contain files not located on local computers, hard drives, or other storage media. These files could be created entirely online or moved to the cloud storage and then deleted from the local device. Because of this, I am requesting a warrant to Microsoft OneDrive to identify any accounts used by Kohberger and request the located data within the account be provided to assist in the investigation. This is to include all accounts linked by recovery email, cookie, Microsoft IDs, creation IPs or phone numbers associated with these known identifiers associated with Kohberger:

(509) 592-8458

bryanchristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

OneDrive ResID = 9E1D26621EA2350E

[REDACTED]@wsu.edu

I also know the online payment service Paypal was referenced and appears to have been utilized on the computer, I am requesting a warrant for Paypal for data related to the following account identifiers, which have been previously known to be used by Kohberger, between June 23, 2022 and December 31, 2022:

(509) 592-8458

bryanchristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

Spotify Kohberger Warrant

Case # 23-M09903

Date: 8/1/2023

On July 25, 2023, I applied for a warrant for user data from June 1, 2022, to present associated with the Spotify accounts with the any of the following identifiers:

BryanChristopher1994@gmail.com

yewsirneighm@gmail.com

bk5781@desales.edu

(509) 592-8458
[REDACTED]

Based on information obtained from Washington State University, Bryan Kohberger moved to the Pullman, Washington on or about June 23, 2022. I requested both historical records and real time/provisional records in order to determine if Kohberger had any interactions with the victims leading up to the November 13, 2022 crime.

On July 25, 2023, the warrant was granted and signed by Magistrate Megan Marshal with fourteen (14) days to serve the legal process. At approximately 1406 hours, the warrant was served via email (law-enforcement@spotify.com).

On July 26, 2023, I received an email from Spotify stating the data requested pursuant to the warrant was not available.

A warrant return and affidavit were completed and these documents were sent to the Latah County Prosecutor's Office to be returned to the court.

Additional Video Downloads

Case# 22-M09903

Date: 10/25/2023

On October 17, 2023, I received an email from the Latah County Prosecutor's Office in reference to downloading additional video from the security camera seized from the residence located at 1112 King Road in Moscow, Idaho.

Previously video had been downloaded from the camera for the approximately time frame of 0230 to 0430 hours on November 13, 2022. These videos were downloaded and contained audio. Through different methods using forensically acquired data from the camera's SDcard, additional videos were downloaded, however, they did not include the audio.

I was requested to download videos, to include audio, from the approximate time frames of 0445 to 1200 hours on November 13, 2022. Due to the fact the camera light bulb connection was inadvertently broken previously, a repair to the device to allow it to be powered on was needed. In the email received on October 17, 2023, Defense Counsel Anne Taylor provided approval of the repair. Prior approval was provided by the Latah County Prosecutor's Office.

I was able to request and receive the camera and wireless router from evidence. I was successful in replacing the light-bulb threaded connection with a standard wall-plug to power the device. The device powered up and I was able to download videos from 0445 hours to 1205 hours from the device. Upon reviewing the videos, they appeared to contain audio.

The videos were saved to a forensic computer located in the secure Moscow Police Department. These videos were concatenated using Axon Investigate (formerly called Input-Ace) version# 3.2.0. These files were placed onto Blu-Ray disks and placed into evidence. I returned the camera and router to evidence after resealing their respective containers.

CastViz Working Files

Case: 22-M09903

Date: 5/23/2024

Previously, the Latah County Prosecutor's Office requested any CastViz session logs pertaining to the phone number (509)592-8458. I did not locate, nor remember creating, any session logs pertaining to the screenshots I created previously using CastVIZ Version #30.0.0 as described in my previous report.

While preparing for the Motion to Comply Hearing, set for May 23, 2024, I found the following files. They appear to be two .Zip files containing what appear to be CastVIZ session files:

Kohberger 48 HR Records.zip

Kohberger Full Records.zip

I also located the following files with the session data files:

LocDBoR Near Crime Scene.csv

Working CDRs.xlsx

Export (1).kmz

I located emails from FBI Special Agent [REDACTED] providing me with the files above.

In trying to open these session files in CastVIZ to verify them, I received an error message. In reviewing the metadata, it showed the version of CastVIZ used to create them was 28.0.0. In speaking with FBI Agent [REDACTED] who teaches CastVIZ trainings, he informed me I would not be able to open a previous version session file (28) in a newer version of the software (30).

In examining the drawings.json file, I found references to 1122 King Road and 1630 NE Valley Road, Pullman, WA.

Out of the abundance of caution, I placed these files into a folder named, "CastVIZ."

I then located the folder in which the data I used for the CastVIZ session where I saved screenshots for exhibits. No session files were located. The screenshots created had a date of 4/19/2023.

Out of the abundance of caution, I placed these files into a folder named,

"Mowery."

These files were then place onto a DVD and put into evidence. I contacted the Latah County Prosecutor and informed them of the records.
