FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 24
Date Evidence Accepted: 12/13/2022	Analyst: Tara Martinez	
Case Name(s): Suspect - BRYAN KOHBERGER Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

Item 52 (Agency Exh. 22M-1802): one latent lift card.
Item 53 (Agency Exh. 22M-1803): one latent lift card.
Item 54 (Agency Exh. 22M-1804): one latent lift card.
Item 55 (Agency Exh. 22M-1805): one latent lift card.
Item 56 (Agency Exh. 22M-1806): one latent lift card.

CONCLUSIONS AND INTERPRETATIONS:

Latent lift cards were examined for comparable ridge detail.

Latent lift cards 52-56 - no ridge detail present.

DISPOSITION OF EVIDENCE:

All submitted items will be returned to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

A handwritten signature in black ink, appearing to read "Tara Martinez", with a stylized flourish at the end.

Analyst: Tara Martinez		
Case Name(s): Suspect - BRYAN KOHBERGER Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

1630 NE Valley Rd. #G201

Field Notes:

On 12/30/22 at approximately 0705 PST, Forensic Scientists (FS) Hailey Youngling, Jennie Ayers and I responded to 1630 NE Valley Rd, #G201, Pullman, Washington to assist in a homicide investigation. Jeffery Talbott with Idaho State Police District 2 (ISP D2) and Dustin Blaker with Moscow Police Department arrived to the residence with us. Deputy Chief Dawn Daniels with Washington State University Police Department (WSU PD) was present upon our arrival. The scene was not secured at this time. The temperature was approximately 33 degrees Fahrenheit and the weather was snowy and wet.

1630 NE Valley Rd #G201 is a beige six-plex apartment building with a maroon/brown colored "G" on the exterior. Apartment #G201 is on the second floor on the east side of the building. The second floor staircase is flush with the surrounding sidewalk and has a single flight of stairs going up. The entryway to apartment #G201 is directly east of the staircase.

The interior of apartment #G201 was well kept and sparsely furnished. There are two bedrooms, one bathroom with a separate water closet, a living room and a kitchen. The entryway door enters to the living room. The living room was furnished with a two-seat sofa on the east wall. There was a coffee table and a rug in front of the sofa. On the west wall, there was a television stand with a television and various books on the interior shelving. In the southwest corner of the living room, there was a disconnected air conditioning type unit. The south wall of the living room has a door that opens to the exterior patio. To the north of the television stand, there was a table with one lamp, powered off. On the north wall of the living room, there is a closet. East of the closet (on the north side of the apartment) are two bedrooms, one on the west side, one on the east side. The northwest bedroom was unfurnished and was locked prior to entry. There are two empty 2-door closets located on the west

wall. The door to the northeast bedroom is in the northwest corner of the room. Along the west wall there was a table that contains a computer tower and electronics. A bed was against the north wall. The east wall contains two 2-door closets. To the south of the closet, there was a stool with folded white towels, a small white trash bin and a white laundry basket. The bathroom is located to the south of the northeast bedroom. The kitchen is located to the south of the bathroom. There was a fridge in the northwest corner of the kitchen. To the east of the fridge is a sink. The stove and oven was on the east wall. There were various kitchen appliances on the counter including a dishrack, an electric can opener, a microwave, coffee makers and a bean grinder. The kitchen cabinets contained various food items, dishes, cooking utensils, pots and pans. On the south wall of the kitchen, there was a table with shelving and one stool.

I photographed the exterior and interior of the apartment for overall location, identification and condition.

FS Ayers captured images using the LizQ Imaging System.

FS Ayers performed presumptive tests for the presence of blood on 51 areas inside the apartment. Positive results, indicating the presence of blood, were obtained on two stains from the bedding of the northeast bedroom. A cutting was collected from a pillow in the northeast bedroom (marker B) and a mattress cover was collected from the bed in the northeast bedroom (marker C). A third stain (marker A) was collected from the kitchen countertop but was not tested, due to the size and condition.

Blood was not detected on twelve stains tested in the kitchen, fifteen stains tested in the northeast bedroom, seventeen stains tested in the bathroom, and five stains tested in the living room.

I collected eleven items from the apartment. I collected five items from the north wall closet: one nitrile type black colored glove (marker 1), one "Walmart" receipt with one "Dickies" tag (marker 2), two "Marshalls" receipts (marker 3), one dust canister from "Bissell PowerForce" vacuum (marker 4), eight possible hair strands from the head of the "Libman" broom (marker 5). I collected one "FireTV" stick with cord and plug from the living room television (marker 6). I collected one possible hair strand from the east wall in the bathroom (marker 8) and one possible hair strand inside the shower drain in the bathroom (marker 9). I collected three items from the northeast bedroom: one possible animal hair strand (marker 7), one possible hair strand from the computer pad in the northeast bedroom (marker 10), and one possible hair strand from a pillow in the northeast bedroom (marker 11). FS Ayers collected one computer tower in the northeast bedroom (marker 12).

We cleared the scene at approximately 1933 PST.

All evidence was turned over to Deputy Chief Daniels at approximately 2022 PST on 12/30/22.

1475 NE Glenn Terrell Mall, Wilson Short Hall, Room 12

Field Notes:

On 12/30/22 at approximately 2116 PST, Forensic Scientists (FS) Hailey Youngling, Jennie Ayers and I responded to 1475 NE Glenn Terrell Mall, Wilson Short Hall, Room 12, Pullman, Washington to assist in a

homicide investigation. Jeffery Talbott (ISP D2), Lawrence Mowery (Moscow Police Department) and Deputy Chief Daniels (WSU PD) arrived to the office with us. The scene was secured by Tim Snell, Leslie Lehman (ISP D1) and WSU PD.

Room 12 has four desks. There was also a filing cabinet and shelving.

I took photographs for overall location, identification and condition.

No items were collected or tested.

We cleared the scene at approximately 2155 PST.

I transferred digital images to Talbott (ISP D2) on 12/31/22 at approximately 0910 PST.

FS Ayers provided a thumb drive with LizQ images to Talbott (ISP D2) on 12/31/22 at approximately 1148 PST.

I uploaded all digital images, excluding those from the LizQ System, to the digital imaging system on 01/03/23.

DISPOSITION:

Digital images are being retained by ISP Forensic Services.

REMARKS:

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

01/24/2023 HMY: for the # of presumptive tests, I think the number should be 51, since marker A wasn't tested just collected- update 52 to 51 in the report, "FS Ayers performed a presumptive test for the presence of blood on 52 areas inside the apartment"

In the report: "East of the closet are two bedrooms, one on the west side, one on the east side" Maybe add something about the bedrooms also being north, maybe "East of the closet, on the north side of the apartment, are two bedrooms, one on the west side, one on the east side"?

12/30/2022

1630 NE Valley Rd. G201 Pullman WA

Weather: ~33°F, snowy, wet, drippy

arrived @ residence approx. 0705 PST

exterior of building is beige, marked with Maroon/brown letter "G". Six-plex apartment building, apartments adjoined with another six-plex

303	304
203	204
103	104

301	302
201	202
101	102

knocked & announced @ 0712 PST

Talbot (ISPD2) and Dustin Blaker (Moscow PD) entered @ 0717 PST as well as Deputy Chief Daniels (CWSH PD)

apartment 201 is on the second floor on the east side of building. First floor ~~is~~ has a half flight staircase going down to "ground level" which is slightly below ground.

Second floor staircase is flush with surrounding side walk and has a single flight of stairs going up. entry to apartment 201 is directly east of staircase. apartment 202 is directly across from 201 ^{with} on the west side of building with a ~~single staircase~~ ^{two half} flights going up to floor 3.

Building ^F ~~A~~ is directly east of building G. North of building ^F ~~A~~ is building "E". Another ~~single story~~ ^{two story} townhome style building labeled "H" is to the west of building G. Further west of building (townhome) H is a large, multiple unit mail box structure and beyond are buildings "R" and "Q". South of building "G" is building ^F ~~J~~ directly behind building G, north of building ^F ~~J~~ is a playground area. East of building F is building "K". East of playground area is a small concrete basketball court. ^{Building "L"} is directly east of building K, which is east of building J.

On the backside of building G, each apartment has a balcony. 201 balcony, looking upward from south side has two plastic folding chairs and a folding table. the ^{balcony} window is slightly open with a white panel inserted in opening, appears to have a foil covered circular port.

Fax: (208) 884-7197

FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 27
Date Evidence Accepted: 01/06/2023	Analyst: Tara Martinez	
Case Name(s): Suspect - JACK S DUCOEUR Suspect - BRYAN KOHBERGER Subject - BETHANY G FUNKE Subject - DYLAN M MORTENSEN		

EVIDENCE DESCRIPTION:

Item 98 (Agency Exh. 22M-2140): two exemplars bearing the name Dylan Marie Mortensen (98.1 and 98.2).

Item 109 (Agency Exh. 23M-0077): twelve exemplars bearing the name Bryan Kohberger (109.1-109.12).

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were previously examined for comparable ridge detail.

Latent prints L5 and L6 are of value for comparison.

Latent print L6 is not suitable for Multi-Modal Biometric Identification System (MBIS) inquiry.

Latent print L5 was previously searched through MBIS where no likely candidates were generated.

Latent prints of value were analyzed and compared to the known exemplars bearing the name DYLAN MARIE MORTENSEN.

COMPARISON RESULTS:

Latent Print	DYLAN MORTENSEN
L5	INCE
L6	INCE

INCE in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the known exemplars and/or incomplete known exemplars with which to compare. In order to complete the comparison portion of this examination, it is requested that a quality set of fingerprints be submitted for DYLAN MORTENSEN.

Item 109 was not used in this assignment, see previous reports for further information.

Additional exemplars are requested of BETHANY FUNKE, JACK DUCOEUR and any other persons that were present in the residence on 11/13/22.

DISPOSITION OF EVIDENCE:

Latent prints were marked and preserved. Digital images used for analysis and/or comparison are being retained by ISP Forensic Services.

Items 98 and 109 will be returned to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

Tara Martinez / Forensic Scientist

Issue Date: **02/27/2023**

Packaging Information

Agency Item #22M-2140 Desc: Major Crime prints for Dylan Mortensen.

Lab Item #98 Desc: two exemplars bearing the name Dylan Marie Mortensen (98.1 and 98.2)

<u>Task/Test</u>	<u>Value</u>
Date Opened	01/06/2023
Sealed	Yes
Initialed	Yes
External Packaging Type	evidence envelope
Packaging Notes	2 pieces of white colored paper is in envelope as well. Returned to envelope.

Agency Item #23M-0077 Desc: Major crime prints from suspect.

Lab Item #109 Desc: twelve exemplars bearing the name Bryan Kohberger (109.1-109.12)

<u>Task/Test</u>	<u>Value</u>
Date Opened	01/08/2023
Sealed	Yes
Initialed	Yes
External Packaging Type	evidence envelope
Packaging Notes	scanning exemplars for possible future comparisons. FPC already obtained for comparison to L5 and L6. Exemplar panel is not being added for Kohberger, since no comparisons are being done to these exemplars at this time.

Latent Analysis

<u>Task/Test</u>	<u>Value</u>
Latent # or Lift #	L5
Date	01/07/2023
Orientation Known?	Yes
Anatomic Source	Finger
NV Impressions	Present
Pattern Source	side with delta-left loop? could be a whorl
Clarity	1, 2, and 3
Complexity	non-complex
Pressure	Medium
Distortion	areas of higher pressure or excess amido. smears. some surface lines.
Dev. Medium	amido black
Substrate	plastic-slider door in kitchen of house-facing kitchen (interior)
Preservation	Digital image
Comparison Value	Yes
MBIS Quality	Previously searched
Examiner Notes	Crime scene images 5840 and 5841

Copied from analysis dated 11/20/22

No points of correspondence to Mortensen exemplars (98.1 and 98.2), need better exemplars with full rolls with deltas represented. Waiting on new exemplars for conclusion. TM 01/07/23

As exemplars have still not been submitted, adding conclusion of INCE Mortensen. TM 02/12/23

Need exemplars for Ducoeur, Funke and others that were at the scene on the day of the incident. TM 02/12/23

Verified	Yes	Verifier: Hailey Youngling
Verified Date	02/14/2023	
Verifier Notes	Verified comparison to Mortensen exemplars only INCE Mortensen- cannot exclude #1, #8 and #10 fingers, need better quality rolls

PERSON TAKING PRINTS			DATE			
DET. GARY TOLSON ISP			12/01/2022			

INSTRUCTIONS

TIP PRINTS

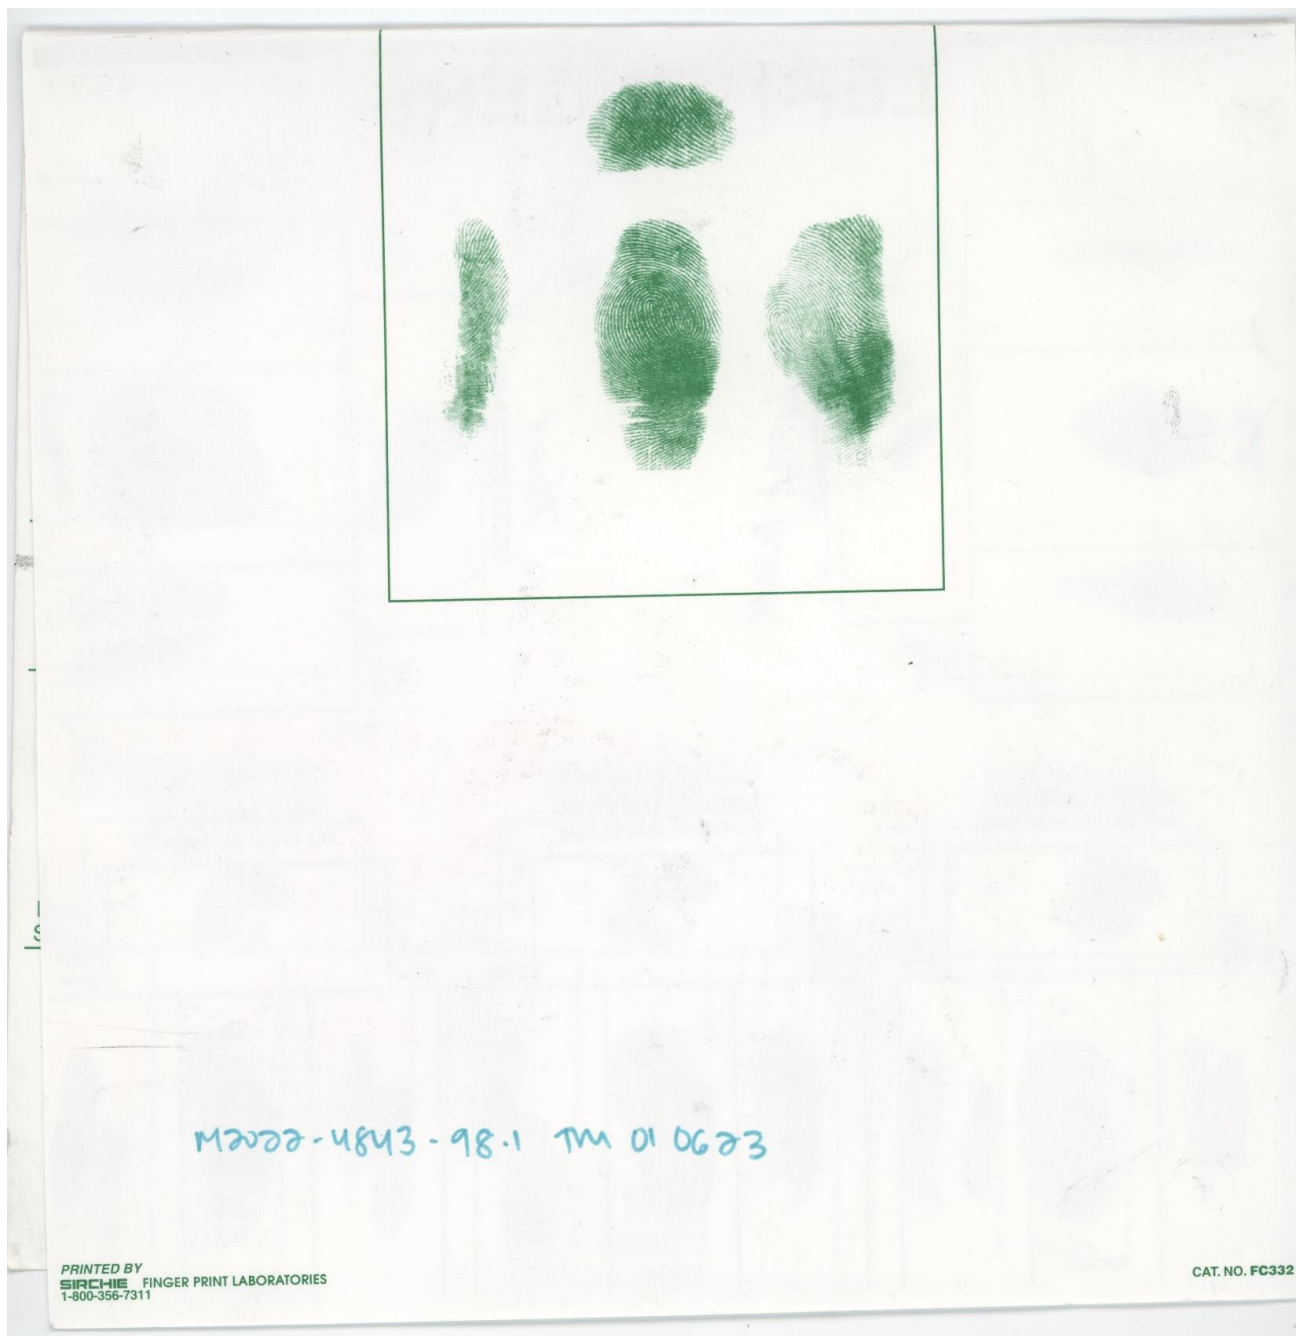

1. For best results, the fingers should be inked with **SIRCHIE's PRINTMATIC™** Roller as illustrated on the palm print card. The prints should be recorded in the same sequence as the fingers appear on the **FC332** Major Case Card.
2. Using the **PRINTMATIC™** Pre-Inked Roller, apply ink to the entire friction ridge of the right thumb. Firmly press the left side of the thumb onto the **FC332** Major Case Card.
3. Place the center portion of the thumb in the center box. This will record the center portion.
4. Place the right side of the thumb in the center box. This will record the right side of the thumb.
5. Finally, place the left tip of the thumb and roll completely from one side to the other, ending on the right side.

Four separate prints should be present; left side with tip area, center portion with tip area, right side with tip area, and a rolled impression of the tip of the finger. This print should be labeled "Number 1" or "Right Thumb." This process is now repeated with the remaining nine fingers, in the same order as on the **FC332** Major Case Card, thus completing the Major Case Tip printing of the ten fingers.

INSTRUCTIONS

PALM PRINTS

1. Using the **PIP100 PRINTMATIC™** Pre-inked roller, apply a thin, even film of ink over the entire area of the palm—including the joints (see figure 1).
2. Position the **FC332** Major Case Card on the **PM300PIP** Image Transfer Roller (see figure 2). Place the entire hand, with fingers together, and starting with the heel, at the upper end of the card (see figure 2).
3. Applying sufficient pressure on the top of the hand, simply roll backward toward the person being printed (see figure 3).
4. Finally, the side portion of the hand should be inked and similarly placed on the card.

FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 30
Date Evidence Accepted: 12/05/2022	Analyst: Tara Martinez	
Case Name(s): Suspect - BRYAN KOHBERGER Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

Latent prints L35.1 and L35.2 were observed and preserved during the processing of the scene at, 1122 King Rd, Moscow ID.

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were examined for comparable ridge detail.

Latent print L35.2 is of value for comparison but is not suitable for Multi-Modal Biometric Identification System (MBIS) inquiry.

Latent print L35.1 does not contain a sufficient amount of clear ridge detail necessary for comparison.

Latent print L35.2 was analyzed and compared to the known exemplars bearing the names XANA KERNODLE and BRYAN KOHBERGER.

COMPARISON RESULTS:

Latent Print	XANA KERNODLE	BRYAN KOHBERGER
L35.2	INCM	INCM

INCM in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the known exemplars and/or incomplete known exemplars with which to compare. In order to complete the comparison portion of this examination, it is requested that a **quality set of complete friction ridge exemplars, i.e. friction ridge skin not typically recorded on a ten-print card (complete foot exemplars)**, be submitted for XANA KERNODLE and BRYAN KOHBERGER.

If an additional suspect is developed by your agency at a later date, palm print and foot exemplars or the appropriate suspect information should be submitted for comparison.

Latent print comparisons were limited in this case, due to crime scene circumstances. If further comparisons are needed, please contact the laboratory.

DISPOSITION OF EVIDENCE:

Latent prints were marked and preserved. Digital images used for analysis and/or comparison are being retained by ISP Forensic Services.

Digital evidence will not be returned to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

Tara Martinez / Forensic Scientist

Issue Date: **04/18/2023**

PM

LATENT PRINT ANALYSIS NOTES

URN/Dept Case #: 22-M09903

Case: M2022-4843

Examiner: Tara Martinez

Dates of analysis: 01/10/2023 to 04/17/2023

Latent Analysis

<u>Task/Test</u>	<u>Value</u>
Latent # or Lift #	L35.1
Date	01/10/2023
NV Impressions	Present
Distortion	low resolution. matrix.
Preservation	Digital image
Comparison Value	IRD
Examiner Notes	low q/q
Verified	Yes
Verified Date	03/31/2023

Verifier: Hailey Youngling

<u>Task/Test</u>	<u>Value</u>
Latent # or Lift #	L35.2
Date	01/10/2023
Orientation Known?	No
Anatomic Source	Palm
NV Impressions	Present
Pattern Source	thenar? possible delta present
Clarity	1 and 2
Complexity	low complexity
Pressure	Medium
Distortion	low resolution. matrix. smears. surface drips, smears.
Dev. Medium	visual
Substrate	metal leg of table
Preservation	Digital image
Comparison Value	Yes
MBIS Quality	No
Examiner Notes	low q/q latent could be a foot based on ridge flow-area curving back up could be a palm loop starting or be plantar ridge flow. Comparing to Kernodle plantar exemplars as well as palm. some correspondence to LP Kernodle-creases on knowns are not represented on latent. after further consideration, more support for being a foot as there is no creasing in latent and the flow of straight ridges. correspondence to right foot Kernodle. slight dissimilarities, could be due to the matrix of blood. Better exemplars could help; INCM/INCF. TM 03/18/23 need foot exemplars for Kohberger; INCM/INCF. TM 03/18/23
Verified	Yes
Verified Date	04/14/2023
Verifier Notes	Very limited reliable level 2 details, heavy matrix distortion, high complexity. Delta present, possible interdigital of palm, possible delta in hypothenar or possible foot. INCM Kohberger- need foot exemplars. INCM Kernodle- correspondence throughout right side of the latent to the Right Foot exemplar, some correspondence around the delta area as well but cannot connect areas of correspondence due to voids and distortion in the known where the center area of the latent would be and the delta area of the the exemplar is not fully recorded. Given the level of matrix distortion present in the latent and distortions in the known, a better recorded exemplar would assist in comparison.

Verifier: Hailey Youngling

IDAHO STATE POLICE FORENSIC SERVICES

700 South Stratford Drive, Ste 125

Meridian, ID 83642-6202

Phone: (208) 884-7170

Fax: (208) 884-7197

FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 32
Date Evidence Accepted: 04/14/2023	Analyst: Tara Martinez	
<u>Case Name(s):</u> Suspect - BRYAN KOHBERGER Subject - HUNTER JOHNSON Subject - EMILY ALANDT Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

Item 128 (Agency Exh. 23M-0501): three sets of exemplars bearing the name Hunter Isaac Johnson (128.1-128.3).

Item 129 (Agency Exh. 23M-0502): three sets of exemplars bearing the name Emily Ann Alandt (129.1-129.3).

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were previously examined for comparable ridge detail.

Latent prints L5 and L6 are of value for comparison.

Latent print L6 is not suitable for Multi-Modal Biometric Identification System (MBIS) inquiry.

Latent print L5 was previously searched through MBIS.

Latent prints of value were analyzed and compared to the known exemplars bearing the names HUNTER ISAAC JOHNSON and EMILY ANN ALANDT.

COMPARISON RESULTS:

Latent Print	HUNTER JOHNSON	EMILY ALANDT
L5	INCE	Excluded
L6	INCE	INCL

INCE in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the known exemplars and/or incomplete known exemplars with which to compare. In order to complete the comparison portion of this examination, it is requested that a quality set of fully rolled fingerprints be submitted for HUNTER JOHNSON.

INCL in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the latent print.

Excluded in the table above indicates that the latent print is excluded to the exemplars used.

Additional exemplars are requested of BETHANY FUNKE, JACK DUCOEUR and any other persons that were present in the residence on 11/13/22.

DISPOSITION OF EVIDENCE:

Latent prints were previously marked and preserved. Digital images used for analysis and/or comparison are being retained by ISP Forensic Services.

Items 128 and 129 will be returned to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

Tara Martinez / Forensic Scientist

Date Opened	04/14/2023
Sealed	Yes
Initialed	Yes
External Packaging Type	manila envelope
Packaging Notes	agency seal is initialed but not dated

Agency Item #23M-0502 Desc: elimination prints from Emily Alandt

Lab Item #129 Desc: three sets of exemplars bearing the name Emily Ann Alandt (129.1-129.3)

<u>Task/Test</u>	<u>Value</u>
Date Opened	04/14/2023
Sealed	Yes
Initialed	Yes
External Packaging Type	manila envelope
Packaging Notes	agency seal is initialed but not dated

Latent Analysis

<u>Task/Test</u>	<u>Value</u>
Latent # or Lift #	L5
Date	04/14/2023
Orientation Known?	Yes
Anatomic Source	Finger
NV Impressions	Present
Pattern Source	side with delta-left loop? could be a whorl
Clarity	1, 2, and 3
Complexity	non-complex
Pressure	Medium
Distortion	areas of higher pressure or excess amido. smears. some surface lines.
Dev. Medium	amido black
Substrate	plastic-slider door in kitchen of house-facing kitchen (interior)
Preservation	Digital image
Comparison Value	Yes
MBIS Quality	Previously searched
Examiner Notes	crime scene images 5840 and 5841

copied from analysis dated 11/20/22

Need better, clearer exemplars for Johnson, with fuller represented deltas; INCE. TM 04/14/23

Verified Yes

Verifier: Hailey Youngling

Verified Date 04/17/2023

Verifier Notes EXC Alandt FPC/PPCs

INCE Johnson- cannot exclude #9 or #10 due to poor quality of the known, need clearer rolls.

Digital images stored in Foray/Adams Web
Digital images stored in Foray/Adams Web

<u>Task/Test</u>	<u>Value</u>
Latent # or Lift #	L6
Date	04/14/2023
Orientation Known?	Yes
Anatomic Source	Finger

LATENT PRINT ANALYSIS NOTES

URN/Dept Case #: 22-M09903

Case: M2022-4843

Examiner: Tara Martinez

Dates of analysis: 04/14/2023 to 04/18/2023

NV Impressions	Present
Pattern Source	left loop, plus some joint
Clarity	1 and 2
Complexity	low complexity
Pressure	Medium
Distortion	voids. matrix? possible movement
Dev. Medium	amido black
Substrate	plastic-slider door in kitchen of house-facing patio (outside)
Preservation	Digital image
Comparison Value	Yes
MBIS Quality	No
Examiner Notes	Crime scene images 5846 and 5854 another print next to L6, could be the same latent. very low q/q. borderline value.

Copied from analysis dated 11/20/22

Need better, clearer exemplars for Johnson, with fuller represented deltas; INCE. TM 04/14/23

No points of correspondence to Alandt but latent is not clear enough to exclude; INCL. TM 04/14/23

Read verifier's comments, agree there is some correspondence to #7 Johnson but there are a couple differences. As quality of latent is low, better exemplars are needed for this comparison. TM 04/17/23

Verified

Yes

Verifier: Hailey Youngling

Verified Date

04/17/2023

Verifier Notes

INCE Johnson- some correspondence to #7, limited by the q/q of the latent and poor quality of the known. Need better quality fingers including better recorded joints.

INCL Alandt- similar ridge flows present, latent q/q too poor to exclude.

PERSONAL IDENTIFICATION

To obtain classifiable fingerprints:

1. Use printer's ink.
2. Distribute ink evenly on inking slab.
3. Wash and dry fingers thoroughly.
4. Roll fingers from nail to nail, and avoid allowing fingers to slip.
5. Be sure impressions are recorded in correct order.
6. Notate in the appropriate finger blocks if applicant is missing one or more fingers for any reason. If not missing, all ten impressions must be provided with deformities notated.
7. If some physical condition makes it impossible to obtain perfect impressions, submit the best that can be obtained.
8. Examine the completed prints to see if they can be classified, bearing in mind the following:

Most fingerprints fall into the patterns shown below. Other patterns occur infrequently and are not shown here.

Forensic Examination Admin Review Checklist
Lab Case: M2022-4843

Agency: MOSCOW POLICE DEPARTMENT

Agency Case: 22-M09903

Section: Latent Print Examination

Report Number: 30

Examiner: Tara Martinez

Review Date: 4/18/2023 7:16:29AM

Are all Items Documented? Is the reported item description relatively consistent with the description provided by the submitting agency?	Yes
Are correct descriptions, item #'s, conclusions reported for all items?	Yes
Are images calibrated (if needed)?	Yes
Are scans of all exemplars present. Is there documentation of ILETs search for associated names?	Yes
Are scans of LLCs present and have case #, initials, & item # on both sides?	N/A
Are the correct names in header?	Yes
Are Victim/Suspect/Subject names capitalized throughout?	Yes
Assignments Tab - Review service request, routing history.	Yes
Case Info Tab - Is MBIS packet with case # containing candidate lists, and hit charts attached?	N/A
Case Info Tab - Review admin docs and case correspondence	Yes
Custody Tab - Reviewed chain of custody?	Yes
Do all images contain the correct descriptions? Are all IDs signed/dated by analyst and verifier?	Yes
Does disposition state Digital images maintained and list Items/IEP to be returned/processing items previously returned?	Yes
Does Foray contain all required photos and lift cards?	Yes
Does report use correct Latent Print Statements (Items not opened/not analyzed; Comparison - evidence previously processed; Suspect later date; Victim elimination statement; TLI hit- MBIS previously searched; All prints ID'd; No prints on file; need MCP/FPC/PPC)	Yes
Is notation present that images are stored in Foray/Adams Web?	Yes
Is spelling, grammar (singular/plural agreement) correct?	Yes
Is the correct disposition statement used (Items returned, retained, or forwarded to another lab)?	Yes
Matrix/Notes packet - Does info in MBIS panel correspond to MBIS packet (correct latent #'s, dates, data bases, and areas searched)?	N/A
Matrix/Notes packet - Is documentation of review present if MBIS was ran by non-reporting examiner?	N/A
Names Tab- Are correct names listed and the correct ones selected?	Yes
Notes Packet - Is case #, analyst's initials and page numbers on all pages?	Yes
Report - Does report use correct Latent Print Statements (MBIS only case; Only MBIS hit compared; Latents compared prior to additional search statements (if applicable))?	N/A
Review admin attachments - Review agency reports, emails, etc. (case # on first page).	Yes
Submission Tab - Review special notes/handling instructions	Yes
Was each analysis documented and verified?	Yes
Were correct methods selected and followed? Were stats fields completed? Are deviations/approvals documented?	Yes

Field Notes:

On 03/29/24, at approximately 1008 MDT, I responded to Idaho State Police Forensic Services Laboratory at 700 S Stratford Dr. Meridian, Idaho 83642 to assist with a homicide investigation.

I took two fingerprint exemplars from DYLAN MARIE MORTENSEN. One inked fingerprint card and one powder/adhesive card were taken.

I cleared the scene at 1028 MDT.

All evidence collected was turned over to Mickey Hall with Idaho State Police Forensic Services on 03/29/24 at 1032 MDT.

REMARKS:

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 38
Date Evidence Accepted: 03/29/2024	Analyst: Tara Martinez	
<u>Case Name(s):</u> Suspect - JACK S DUCOEUR Suspect - BRYAN KOHBERGER Subject - HUNTER JOHNSON Subject - EMILY ALANDT Subject - BETHANY G FUNKE Subject - DYLAN M MORTENSEN Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

Latent prints L5 and L6 were previously captured digitally at 1122 King Rd. Moscow, Idaho.

Item 135 (Agency Exh. 135): two fingerprint exemplars bearing the name Dylan Marie Mortensen (135.1 and 135.2).

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were previously examined for comparable ridge detail.

Latent prints L5 and L6 are of value for comparison.

Latent print L5 is of value for Multi-Modal Biometric Identification System (MBIS) inquiry and was previously searched through MBIS.

Latent print L6 is not suitable for MBIS inquiry.

Latent prints of value were analyzed and compared to the known exemplars bearing the name DYLAN MARIE MORTENSEN.

COMPARISON RESULTS:

Latent Print	DYLAN MORTENSEN
L5	Excluded
L6	Excluded

Excluded in the table above indicates that the latent print is excluded to the exemplars used.

DISPOSITION OF EVIDENCE:

Latent prints were previously marked and preserved. Digital images used for analysis and/or comparison are being retained by Idaho State Police Forensic Services and are available upon request.

Item 135 will be returned to the submitting agency.

REMARKS:

The descriptions, conclusions and interpretations stated above apply to the sample(s) as received.

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

Tara Martinez / Forensic Scientist

Field Notes:

On 06/21/24, at approximately 1335 MDT, Hunter Johnson, accompanied by his mother, Jessica Hendrix, arrived at 700 S Stratford Dr. Meridian, ID 83642, Ada County, Idaho. I met with them to assist with a homicide investigation.

I collected three palm print and fingerprint exemplars using the powder/adhesive lift method from Hunter Johnson.

I cleared the scene at 1345 hours MDT.

Disposition of Evidence:

Exemplars were retained by Idaho State Police Forensic Services pending a latent print comparison assignment in this case.

REMARKS:

I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

EVIDENCE DESCRIPTION:

Latent prints L5 and L6 were previously captured digitally at 1122 King Rd. Moscow, Idaho.

Item 136 (Agency Exh. 136): three exemplars bearing the name Hunter Johnson (136.1-136.3).

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were previously examined for comparable ridge detail.

Latent prints L5 and L6 are of value for comparison.

Latent print L5 is of value for Multi-Modal Biometric Identification System (MBIS) inquiry and was previously searched through MBIS.

Latent print L6 is not suitable for MBIS inquiry.

Latent prints of value were analyzed and compared to the known exemplars bearing the name HUNTER JOHNSON.

COMPARISON RESULTS:

Latent Print	HUNTER JOHNSON
L5	Excluded
L6	INCL

Excluded in the table above indicates that the latent print is excluded to the exemplars used.

INCL in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the latent print.

DISPOSITION OF EVIDENCE:

Latent prints were previously marked and preserved. Digital images used for analysis and/or comparison are being retained by Idaho State Police Forensic Services and are available upon request.

Item 136 will be returned to the submitting agency.

FORENSIC LATENT PRINT EXAMINATION REPORT

Case Agency(s): MOSCOW POLICE DEPARTMENT	Agency Case No(s).: 22-M09903	Laboratory Case No.: M2022-4843
Date(s) of Offense: 11/13/2022	Investigating Officer(s): Dustin Blaker	Report No.: 41
Date Evidence Accepted: 09/11/2024	Analyst: Tara Martinez	
<u>Case Name(s):</u> Suspect - JACK S DUCOEUR Suspect - BRYAN KOHBERGER Subject - HUNTER JOHNSON Subject - EMILY ALANDT Subject - BETHANY G FUNKE Subject - DYLAN M MORTENSEN Victim - MADISON M MOGEN Victim - XANA A KERNODLE Victim - ETHAN J CHAPIN Victim - KAYLEE J GONCALVES		

EVIDENCE DESCRIPTION:

Latent prints L5 and L6 were previously captured digitally at 1122 King Rd. Moscow, Idaho.

Item 137 (Agency Exh. 24M-1284): two fingerprint cards bearing the name Bethany Grace Funke (137.1, 137.2).

Item 138 (Agency Exh. 24M-1332): three fingerprint cards bearing the name Bethany Grace Funke (138.1-138.3).

CONCLUSIONS AND INTERPRETATIONS:

Latent prints were previously examined for comparable ridge detail.

Latent prints L5 and L6 are of value for comparison.

Latent print L5 is of value for Multi-Modal Biometric Identification System (MBIS) inquiry and was previously searched through MBIS.

Latent print L6 is not suitable for MBIS inquiry.

Latent prints of value were analyzed and compared to the known exemplars bearing the name BETHANY GRACE FUNKE.

COMPARISON RESULTS:

Latent Print	BETHANY FUNKE
L5	Excluded
L6	INCL

INCL in the table above indicates that the comparison is inconclusive to the available exemplars. The inconclusive result is due to a lack of quantity/quality of detail in the latent print.

Excluded in the table above indicates that the latent print is excluded to the exemplars used.

If an additional suspect is developed by your agency at a later date, a fingerprint card or the appropriate suspect information should be submitted for comparison.

DISPOSITION OF EVIDENCE:

Latent prints were marked and preserved. Digital images used for analysis and/or comparison are being retained by Idaho State Police Forensic Services and are available upon request.

Items 137 and 138 will be returned to the submitting agency.

Finger
Medium
Agency
no recorded by, agency or date listed
138.2 and 138.3 are the same as 138.1 but 138.1 and 138.2 are green
FPC and 138.3 is a white card, only scanned in 138.1 in Foray, others
scanned for documentation

exemplars are all the same but 138 has been printed by agency at 1200
dpi, per my conversation with them and the note they left on the
exemplar.

PERSONAL IDENTIFICATION

To obtain classifiable fingerprints:

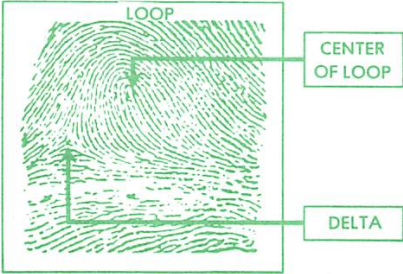

1. Use printer's ink.
2. Distribute ink evenly on inking slab.
3. Wash and dry fingers thoroughly.
4. Roll fingers from nail to nail, and avoid allowing fingers to slip.
5. Be sure impressions are recorded in correct order.
6. If an amputation or deformity makes it impossible to print a finger, make a notation to that effect in the individual finger block.
7. If some physical condition makes it impossible to obtain perfect impressions, submit the best that can be obtained with a memo stapled to the card explaining the circumstances.
8. Examine the completed prints to see if they can be classified, bearing in mind the following:
 - Most fingerprints fall into the patterns shown below. Other patterns occur infrequently and are not shown here.

THESE LINES RUNNING BETWEEN
DELTAS MUST BE CLEAR

ARCHES HAVE NO DELTAS

THE LINES BETWEEN CENTER OF
LOOP AND DELTA MUST SHOW
