On September 4, this Court ordered that Respondents submit a revised Effect Statement that substantially complies with section 34-1810(1)(b). Slip Op. at 13. In compliance with that order, Respondents respectfully submit the below Effect Statement:

A YES vote would support creating a right to abortion before fetal viability—defined as a fetus’ ability to survive without extraordinary medical measures—and after fetal viability in cases of medical emergency; providing protections against professional discipline and civil and criminal liability for healthcare providers; and codifying a statutory reproductive right to freedom and privacy.

A NO vote would support making no change to Idaho’s current law, which preserves the life of preborn children by prohibiting abortion, except when necessary to prevent the death of the pregnant woman, and during the first trimester in documented cases of rape or incest reported to law enforcement.
